

1/2, 44801-10 (M-31)

US ENVIRONMENTAL PROTECTION AGENCY/ OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 44801-10	DATE OF ISSUANCE
	TERM OF ISSUANCE DEC 17 1985	
	NAME OF PESTICIDE PRODUCT Fung-Trol-30	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
*(Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)*

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Hydra-Tone Chemicals, Inc.
 211 Grandview Drive
 Ft. Mitchell, KY 41017

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 44801-10" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ACTIVE INGREDIENT:

2-(Thiocyanomethylthio)benzothiazole 30%

INERT INGREDIENTS 70%

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage. Causes skin irritation. This product may cause allergic skin reactions. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT: *If in eyes,* flush with plenty of water. Get medical attention. *If on skin,* wash with plenty of soap and water. Get medical attention. *If swallowed,* drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

NET CONTENTS

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

COOLING TOWERS: _____ FUNG-TROL-30
cooling tower wood against soft or surface rot and insect damage by spraying or painting a dispersion containing 0.5 to 0.7% _____ FUNG-TROL-30 in water onto the clean wood surfaces. The amount of _____ FUNG-TROL-30 per 1000 gal. of water

rot can also be inhibited by periodic shock doses of _____ FUNG-TROL-30 to the recirculating cooling water at the lower basin of the system. Provide 1.25 lb. of _____ FUNG-TROL-30 per 1000 gal. of water. Bleedoff should be stopped for 4 to 8 hr. after treatment. Repeat every four months.

COOLING WATER: _____ FUNG-TROL-30
bacteria, and fungi in industrial recirculating cooling water systems. When control has begun, the system should be cleaned thoroughly to remove biological slime, and other deposits. System should be treated with _____ FUNG-TROL-30 water, and treated with an initial dose of 0.8 to 3.7 fl. oz. of _____ FUNG-TROL-30 per 1000 gal. water in the system.

_____ fl. oz. per 1000 gal. should be made every 1 to 5 days depending on the extent and severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal degradation of wellbore fluids, _____ FUNG-TROL-30 concentrations of 0.05 to 0.25% based on the total wet weight of the fluid.

PETROLEUM SECONDARY RECOVERY: _____ FUNG-TROL-30
control sulfate-reducing bacteria, slime-forming bacteria and other oilfield microorganisms in miscible floods, water-disposal systems, and other oilfield operations. Add _____ FUNG-TROL-30 to the water at the rate of _____ FUNG-TROL-30 per 1000 gal. of water.

_____ be made continuously or intermittently by means of a metering pump before or after injection pumps and injection well headers. Control is noticeably fouled, add 0.6 to 3.7 fl. oz. of _____ FUNG-TROL-30 per 1000 gal. of water continuously until desired degree of control is achieved. _____ FUNG-TROL-30 per 1000 gal. of water.

maintain control. Intermittent or Slug Method: When system control is maintained, add 0.8 to 3.7 fl. oz. of _____ FUNG-TROL-30 per 1000 gal. of water to the system 1 to 4 times per week, or as needed to maintain control.

CUTTING FLUIDS: _____ FUNG-TROL-30
fungal degradation of water-based and water-soluble or emulsifiable oil-based cutting fluids in metalworking operations. It should be added to the cutting fluids at the rate of _____ FUNG-TROL-30 parts per million of the cutting fluid.

_____ added to the concentrate before dilution at a rate of 125 to 250 parts per million of the required concentration in the diluted fluid.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Do not expose to extreme temperatures. Drums should be opened in well-ventilated areas. Label should be removed from overpack drums for disposal. Spills should be absorbed with inert material and disposed in a sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If you cannot dispose of this pesticide, spray mixture, or concentrate in a manner consistent with its labeling, contact your State Pesticide Control Agency or the Hazardous Waste representative at your EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and then recycle where possible. If not recycled, puncture and dispose of in a sanitary landfill, or by other means approved by your local authorities.
