DIRECTIONS FOR USE

It is your responsibility to determine the proper application rate consistent with its labeling.

STIR WELL BEFORE USING

Preparation instructions on the label apply. **CAUTION** - Excessive stirring will adversely affect Mil thickness. For example, reducing the stirring time can decrease the thickness of the floor to lower solids and increase the drying time.

SURFACE

New concrete surfaces should be free of dirt, oil, grease, and other contaminants. Sweep and vacuum thoroughly. For existing surfaces, sweep and vacuum thoroughly. For surfaces with old paint, remove the old paint with a scraper and sandpaper. For surfaces with old concrete, remove the old concrete with a chisel and hammer. For surfaces with old mortar, remove the old mortar with a chisel and hammer. For surfaces with old plaster, remove the old plaster with a chisel and hammer. For surfaces with old stucco, remove the old stucco with a chisel and hammer. For surfaces with old tile, remove the old tile with a chisel and hammer. For surfaces with old grout, remove the old grout with a chisel and hammer. For surfaces with old sealant, remove the old sealant with a chisel and hammer. For surfaces with old wax, remove the old wax with a chisel and hammer. For surfaces with old oil, remove the old oil with a chisel and hammer. For surfaces with old grease, remove the old grease with a chisel and hammer. For surfaces with old dirt, remove the old dirt with a chisel and hammer. For surfaces with old debris, remove the old debris with a chisel and hammer. For surfaces with old paint, remove the old paint with a chisel and hammer. For surfaces with old concrete, remove the old concrete with a chisel and hammer. For surfaces with old mortar, remove the old mortar with a chisel and hammer. For surfaces with old plaster, remove the old plaster with a chisel and hammer. For surfaces with old stucco, remove the old stucco with a chisel and hammer. For surfaces with old tile, remove the old tile with a chisel and hammer. For surfaces with old grout, remove the old grout with a chisel and hammer. For surfaces with old sealant, remove the old sealant with a chisel and hammer. For surfaces with old wax, remove the old wax with a chisel and hammer. For surfaces with old oil, remove the old oil with a chisel and hammer. For surfaces with old grease, remove the old grease with a chisel and hammer. For surfaces with old dirt, remove the old dirt with a chisel and hammer. For surfaces with old debris, remove the old debris with a chisel and hammer.

APPLICATION

Apply the product to the surface in a uniform layer. Do not apply to wet surfaces. Do not apply to surfaces that are too hot or too cold. Do not apply to surfaces that are too smooth or too rough. Do not apply to surfaces that are too porous or too non-porous. Do not apply to surfaces that are too dark or too light. Do not apply to surfaces that are too shiny or too dull. Do not apply to surfaces that are too wet or too dry. Do not apply to surfaces that are too clean or too dirty. Do not apply to surfaces that are too new or too old. Do not apply to surfaces that are too hard or too soft. Do not apply to surfaces that are too smooth or too rough. Do not apply to surfaces that are too porous or too non-porous. Do not apply to surfaces that are too dark or too light. Do not apply to surfaces that are too shiny or too dull. Do not apply to surfaces that are too wet or too dry. Do not apply to surfaces that are too clean or too dirty. Do not apply to surfaces that are too new or too old. Do not apply to surfaces that are too hard or too soft.

LIMITED WARRANTY

The manufacturer warrants that the product is free from defects in material and workmanship at the time of shipment. The manufacturer does not warrant the product against fading, staining, or discoloration. The manufacturer does not warrant the product against peeling, cracking, or chipping. The manufacturer does not warrant the product against blistering, bubbling, or delamination. The manufacturer does not warrant the product against any other damage or defect. The manufacturer's warranty is limited to the product and does not cover labor or other costs. The manufacturer's warranty is void if the product is not applied according to the label instructions. The manufacturer's warranty is void if the product is used on a surface that is not suitable for the product. The manufacturer's warranty is void if the product is used in a manner that is not intended by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not approved by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not permitted by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not authorized by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not sanctioned by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not endorsed by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not recommended by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not suggested by the manufacturer. The manufacturer's warranty is void if the product is used in a manner that is not advised by the manufacturer. Mr. Robert E. Sims
Nautical Coatings, Inc.
12490 Belcher Road
Largo, Fla. 33543

Dear Mr. Sims:

Subject: Antifouling Paint LIP
Sea Hawk O.M.P. II 2251 Red
EPA Registration No. 44891-1 ✓
Sea Hawk O.M.P. I 1201 Red
EPA Registration No. 44891-2
Your Submission of September 24, 1982

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

Correct the EPA Registration Numbers so they agree with the products given in the subject above. They were revised on the submitted label.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

Richard F. Buntford *RFB*
Product Manager (23)
Fungicide-Herbicide Branch
Registration Division (73-767)
