

YOUR BRAND NAME CHLORINATING SOLUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Ventilate poorly ventilated areas as soon as possible. Do not return contents to original container.

ENVIRONMENTAL HAZARDS: This product should not be kept out of lakes, streams, creeks, etc. Treat this product and do not discharge into lakes, streams, ponds, or other water bodies. A discharge permit is obtained from the local environmental agency office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water and not with other chemicals. Mixing this product with grass, fertilizer, or other chemicals will create hazardous gases that may even explode if confined. Do not store in plastic containers.

ACTIVE INGREDIENT
SODIUM HYPOCHLORITE 9%
INERT INGREDIENTS 91%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If inhaled, wash with plenty of soap and water. If on skin, wash with water for at least 15 minutes. Get medical attention if it flows and drink large quantities of water. If ingested, do not induce vomiting. If swallowed, drink large quantities of water. Do not give anything by mouth to someone who is unconscious. Get medical attention.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of federal law to use this product inconsistent with its labeling.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start-up, superchlorinate 1 pint (16 flu. ozs.) of sodium hypochlorite solution per 5000 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

FOR POOL MAINTENANCE

A) Adjust pool water pH to 7.6 - 7.8 range and maintain.
B) Add manually or by a feeder device sodium hypochlorite solution at a rate to maintain an available chlorine of 0.6 to 1.0 ppm. One half pint (8 flu. ozs.) of sodium hypochlorite solution for each 5000 gallons of water will maintain 0.6 to 1.0 ppm available chlorine. Frequency of application depends on temperature and number of swimmers. Use a test kit to determine the pH and chlorine residual in the pool.

NOTE: This product degrades with age. Use a higher dosage if necessary to obtain the available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry place away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and return to manufacturer or discard by placing in trash bag and burying in an approved land fill. Product or rinsate used should be diluted with water and disposed of in a sewer. Do not contaminate food or feed by storage or handling of equipment.

FIRST AID: If in eyes, wash with plenty of water. If on skin, wash with water. If inhaled, get fresh air. If swallowed, drink water. Do not induce vomiting. If you feel unwell, call your doctor.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start-up, superchlorinate with one (1) pint (16 flu. ozs.) of sodium hypochlorite solution for each 2500 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

FOR POOL MAINTENANCE:

- Adjust pool water pH to 7.6 - 7.2 range and maintain.
- Add manually or by a feeder device, sodium hypochlorite solution at a rate to maintain an available chlorine residual of 0.6 to 1.0 ppm. One half pint (8 flu. ozs.) of sodium hypochlorite solution for each 6000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.6 to 1.0 ppm available chlorine will depend on temperature and number swimmers. Use test kit to make certain that pH and chlorine residual are in the proper range.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry area away from heat and light. Do not use if you have large quantities of water. Rinse empty container thoroughly with water and either return to manufacturer or discard by placing in trash collection or burying in an approved land fill. Product or rinse that cannot be used should be diluted with water and disposed of in a sanitary sewer. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
