

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NUMBER 44907-5	DATE OF ISSUANCE MAY 22 1986
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT RTOKARE RF-320	
	NAME AND ADDRESS OF REGISTRANT (Include ZIP code)	
Waterkare Technologies 3490 Wolfe Charvel Road Greensboro, NC 27401		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Add the phrase "EPA Registration No. 44907-5" to your label before you release the product for shipment.		
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.		
 John A. Lee Product Manager (31) Disinfectants Branch Registration Division (TS-767C)

BIOKARE BE-320

ACCEPTED  
with COMMENTS  
in EPA Letter Dated:

MAY 22 1986

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 44907-5 20.0 %

INERT INGREDIENTS ..... 80.0 %

This product contains 1.81 lb. of active ingredient per gallon and weighs 9.05 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN  
DANGER

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

BIOKARE BE-320 is used for recirculating cooling tower systems and industrial microbiological slimes. Prior to the use of BIOKARE BE-320, industrial and/or commercial recirculating cooling towers should be cleaned to remove algal growth, microbiological slimes, and other deposits. Initial slug addition of 5.7 to 8.6 fl. oz. of BIOKARE BE-320 per 1000 gal. of water to provide 50 to 75 ppm BIOKARE BE-320 based on total weight of water until control is evident. Make subsequent slug additions of BIOKARE BE-320 per 1000 ppm BIOKARE BE-320 every 2 to 3 days. The frequency of addition depends upon the relative amount of microbiological problem. Slug additions should be made to the water entering the cooling tower systems.

BIOKARE BE-320 is used for mist eliminators which maintain effective mist-eliminating components cleaned to remove bacterial slime and other deposits. Initial slug addition of 17.2 fl. oz. of BIOKARE BE-320 per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 10.0 to 17.2 fl. oz. of BIOKARE BE-320 per 1000 gallons of water should be employed every 1 to 5 days. The frequency of addition depends upon the relative amount of biofouling. Slug additions may be made to the sumo or the water entering the mist eliminator system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than 10 drums. Drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Do not discharge into surface waters. If these wastes cannot be disposed of by the above methods, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, or, if allowed by state and local authorities, by sanitary landfill, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.

METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, or, if allowed by state and local authorities, by sanitary landfill, or by other procedures approved by state and local authorities.
