

PM-32 REG# 44949-3 3

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 44949-3	DATE OF ISSUANCE FEB 8 1988
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT ALGAEICIDE WP	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

CROCODIN, INC.
 5400 WILSON ST
 FORT WORTH, TEXAS 76117

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(C) provided that you:

1. Submit/enter all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 44949-3" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ALGAECIDE WP

ACCEPTED
with COMMENTS
in EPA Letter Dated:

FEB 27 1989
JAN 10 1989

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended for the pesticide
registered under EPA Reg. No.
44949-3

ACTIVE INGREDIENT:

Polyoxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride] 10.0 %

INERT INGREDIENT 90.0 %

This product contains 0.85 lb. of active ingredient per gallon and weighs
8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ALGAECIDE WP is used to control algae and fungi in recirculating commercial and industrial air wash systems. To its use, systems must be cleaned to remove algae, slime, and other deposits. An initial slug addition of fluid ounces of ALGAECIDE WP of water to provide a concentration of 48 to ALGAECIDE WP, based on the volume of water in the system, is recommended. Repeat initial dosage of ALGAECIDE WP per 1000 gallons of water. Subsequent slug additions of 1.53 to ALGAECIDE WP per 1000 gallons of water.

120 parts per million of ALGAECIDE WP should be employed every 2 to 5 days, or as needed. The frequency of application depends upon the relative amount of bleedoff and the severity of the problem. Slug additions should be made in the sump of the air-washing system. ALGAECIDE WP is used to clean air-washing systems that maintain effective mist eliminators. To its use, systems should be cleaned to remove algae, slime, and other deposits. An initial slug dose of 24.7 to ALGAECIDE WP per 1000 gallons of water should be employed each 1 to 2 weeks. Repeat initial dosage until control is evident. Subsequent slug additions of 16.9 to 41.2 fluid ounces of ALGAECIDE WP per 1000 gallons of water should be employed each 1 to 2 weeks. The frequency of addition depends upon the relative amount of bleedoff and the severity of the bacterial problem. Slug additions may be made in the sump or collection trays of the airwash system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not stack more than four drums high. Leaking or damaged drums should be removed from service and stored in a well-ventilated area. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Containers should be closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product should be disposed of in a well-ventilated area or a sanitary landfill.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or burn in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.

METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or burn in a sanitary landfill, or by other procedures approved by state and local authorities.
