

U.S. ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (WH-567)
WASHINGTON, D.C. 20460

EPA REGISTRATION NO.

45017-36

DATE OF ISSUANCE

August 8, 1985

TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

Slime-Trol DPR-1025

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Metz Paper Chem, Inc.
7598 Baymeadow Way
Jacksonville, FL. 32216

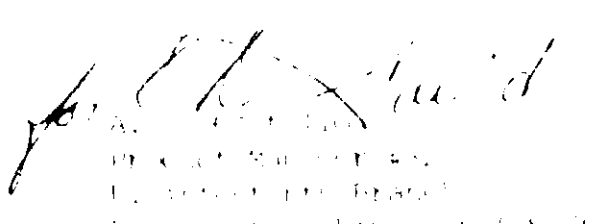

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to the provisions of that Act and the regulations thereunder. The registrant is required to maintain a file of all data submitted in support of the registration and to make such data available to the Administrator upon request. The registrant is also required to submit to the Administrator a copy of the label for the product and to make such label available to the Administrator upon request. The registrant is also required to submit to the Administrator a copy of the product for testing and to make such product available to the Administrator upon request. If these conditions are not met, the registration will be suspended and the product will be considered to be in violation of the Act. The registrant is also required to submit to the Administrator a copy of the product for testing and to make such product available to the Administrator upon request.

(FIRST PANEL)

PRECAUTIONARY STATEMENTS[14bf]

HAZARDS TO HUMANS AND[12bf]
 DOMESTIC ANIMALS[12bf]

WARNING[18bf]

Do not take internally. Causes eye and skin irritation. Do not get into eyes, on skin or on clothing. Do not inhale vapor or mist. Use with adequate ventilation. Wear protective gloves and goggles when handling. Immediately remove and wash contaminated clothing before reuse. Wash thoroughly after handling.

ENVIRONMENTAL HAZARDS[14bf]

This pesticide is toxic to fish and wildlife. Do not discharge into lakes, streams, ponds or public water unless in accordance with a NPDES permit. For guidance contact your Regional Office of the EPA. Do not contaminate water by cleaning of container and equipment or disposal of wastes. Apply this pesticide only as specified on this label.

PHYSICAL AND CHEMICAL HAZARDS[14bf]

~~flammable~~ Do not use, pour or store near heat or open flame.

DIRECTIONS FOR USE[14bf]

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PULP AND PAPER MILL SYSTEMS[12bf]

BETZ PaperChem Slime-trol DPB-1025 aids in the control of objectionable bacteria and fungi in pulp, paper mill and the additive system, and for the preservation of pulp, pigment slurries, alum, emulsions, adhesives, defoamers, polymers, and paper products. Additions can be made on a continuous or intermittent basis, depending upon the severity of the contamination.

BADLY FOULED SYSTEMS must be cleaned before treatment is begun.

ACCEPTED
 with COMMENTS
 in EPA Letter Dated.

AUG 8 1985

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act
 as amended, for the pesticide
 registered under EPA Reg. No.

WARNING[18bf]

STATEMENT OF PRACTICAL TREATMENT[14bf]

In case of contact with skin, wash immediately with soap and plenty of water. Immediately contact physician.

In case of contact with eyes, flush promptly and thoroughly with clear water for at least 15 minutes. Immediately contact physician.

In case of inhalation, immediately remove affected person from contaminated area to fresh air. Immediately contact physician.

In case of ingestion, immediately contact physician. Never give anything by mouth to an unconscious person.

A Material Safety Data Sheet containing more detailed information relative to this product is available upon request.

See left panel for additional Precautionary Statements.

Chem, Inc. JACKSONVILLE, FLORIDA 32216 [Cont'd at bottom of third panel.]

(THIRD PANEL)

FOR SLIME CONTROL

Slime-trol DPB-1025 should be added directly to the pulp and paper mill systems. Apply at a point in the system where the product will be uniformly mixed.

INTERMITTENT OR SLUG METHOD

INITIAL DOSE: When the system is noticeably fouled, add Slime-trol DPB-1025 at the rate of 0.1 to 1.0 pound per ton of pulp or paper produced. Addition of Slime-trol DPB-1025 to the additive system should be made directly at the rate of 0.2 to 3.0 pounds (24 to 360 ppm) per 1000 gallons. Repeat until control is achieved.

SUBSEQUENT DOSE: When microbial control is evident, add Slime-trol DPB-1025 at the rate of 0.1 to 0.75 pound per ton of pulp or paper produced. Treat the system as needed to maintain control. Addition of Slime-trol DPB-1025 to the additive system may be reduced to 0.1 to 3.0 pounds (12 to 360 ppm) per 1000 gallons.

CONTINUOUS FEED METHOD

INITIAL DOSE: When the system is noticeably fouled, add Slime-trol DPB-1025 at the rate of 0.1 to 1.0 pound per ton of pulp or paper produced. Addition of Slime-trol DPB-1025 to the additive system should be made directly at the rate of 0.2 to 3.0 pounds (24 to 360 ppm) per 1000 gallons. Continue until control is achieved.

SUBSEQUENT DOSE: Maintain the following level by continuous feed of Slime-trol DPB-1025 at the rate of 0.1 to 0.75 pound per ton of pulp and paper produced. Addition of Slime-trol DPB-1025 to the additive system should be made at the rate of 0.1 to 3.0 pounds (12 to 360 ppm) per 1000 gallons.

FOR PRESERVATION[12b f]

Slime-trol DPB-1025 should be added directly to the material to be preserved prior to manufacturing into the finished product, i.e., pulp, broke, polymers, defoamers, alum, emulsions, adhesives, paper mill coatings,

pigment slurries, and paper products. The dosage rate will depend upon the material to be preserved and the storage time. The usual additions should be 200 to 300 ppm and under extreme conditions of spoilage the dosage rate should be increased to 250 to 800 ppm. The above recommendations are based on a maximum storage time of 2 weeks. For storage time greater than 2 weeks, the maximum concentration should be increased to 1000 ppm.

Emergency (Health or Accident): 215-355-3300

(FOURTH PANEL)

STORAGE AND DISPOSAL[12bf]

STORAGE: Keep container tightly closed. Protect from freezing. Store in a dry place. Do not store at elevated temperatures.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

Pesticide wastes are acutely hazardous and/or toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL:

Label and Plastic Containers[bf]: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate or burn if allowed by state and local authorities. If burned, stay out of smoke.

Fiber Drums with Liners[bf]: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and drum in a sanitary landfill or incinerate if allowed by state and local authorities. Do not reuse empty drum and liner.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ PaperChem, Inc.
