

PULVEX
Anti-Flea
CAT
COLLAR

Kills Fleas Continuously
up to 6 weeks when collar is worn
CAUTION: Keep out of reach of children. See other cautions on back panel.

Effective 24 Hours A Day
SATISFACTION GUARANTEED OR MONEY BACK
Adjustable for all cats • Easy to put on

DIRECTIONS

The Pulvex Anti-Flea Cat Collar is adjustable. Place collar around cat's neck, insert end through buckle and adjust for snug fit. If collar is too long, tie behind buckle and cut off excess using a bias cut.

Pulvex Anti-Flea Cat Collar is impregnated with Lindane which kills the continuous moving fleas on contact and will immediately begin to reduce the population 80-93%.

The collar continues to kill fleas upwards to 6-8 weeks, depending upon climatic conditions. For year 'round protection replace collar every 6 weeks or as needed. Dust cat's living quarters with PULVEX CAT FLEA POWDER.

CAUTION: Do not allow children to play with this collar. Active ingredient is harmful if swallowed. Do not use any other pesticide on pet while collar is worn. Do not use on sick or convalescing animals. Pulvex Anti-Flea Cat Collar is not meant to restrain a cat but to be worn in conjunction with its regular collar.

EPA Reg. No. 59-114

ACTIVE INGREDIENT:

Gamma isomer of benzene hexachloride (from lindane)	0.61% w/w
INERT INGREDIENT	99.39%
	100.0%
