Control of Fleas and Ticks: Dust thoroughly all infested areas, particularly crevices in woodwork, floor and floor covering as well as rugs, cushions, mattresses, upholstered furniture, and other pet sleeping areas. 1 to 2 days after application, areas may be vacuumed to assist in control of fleas. Repeat as needed.

Control of Fleas and Lice: Dust the powder onto your cat or dog's fur, gently rubbing the powder down through the coat to the skin. Make sure you get the underbelly, legs, neck, and tail areas. After treatment, you may brush or comb the animal's coat to remove fleas and lice. Repeat as needed.

Control of Ants: Dust thoroughly around areas where insects enter building; around door and window frames, ant trails, and ant hills.

Control of Roaches: Dust thoroughly all areas where roaches crawl and hide, around water pipes, in cracks and crevices, under and behind cabinets, refrigerators and sinks, and around doors, windows and bookcases. Repeat application as needed.

Control of Silverfish: Dust thoroughly in cracks and crevices around baseboards, door frames, bookcases, and storage areas.

Control of Bedbugs: Dismantle beds completely and dust all parts thoroughly, including mattress seams and box springs. Dust all baseboards and wall cracks thoroughly. Repeat if needed.

-2-

d. Add the heading "STORAGE & DISPOSAL" above the disposal statement.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
