MAR 14 1994

TERM OF ISSUANCE

Until Reregistration

NAME OF PESTICIDE PRODUCT

Diatom Dust Insect Powder

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

EcoSafe Products, Inc.
Box 1177
St. Augustine, FL 32085

~~105443945~~
187

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name, or to its use if it has been covered by others. This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c) (5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase, "EPA Registration No. 45220-9".
- b. Delete "EcoZone" from the product name. Terms directly or indirectly implying safety to the environment are unacceptable on pesticide labeling.
- c. The phrase, other indoor crawling insects is too broad. All affected pest must be listed on the label.
- d. Revise the ingredient statement as follows:

Active Ingredients

Diatomaceous Earth (including silicon dioxide,
other oxides and moisture).....100%

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

201

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager 13
Insecticide-Rodenticide Branch
Registration Division (H7505C)

CARPETS & FLOORS - Dust lightly and thoroughly, work in with a broom and vacuum up excess powder.

PET AREAS - Dust areas where your pet sleeps, under bedding, along baseboards and under furniture.

KITCHEN & BATHROOM - Dust thoroughly all areas, around water pipes, in cracks and crevices, under and behind cabinets, stoves, refrigerators and sinks.

BEDBUGS - Dismantle beds completely and dust all parts thoroughly, including mattress seams and box springs. Dust all baseboards and wall cracks thoroughly.

OUTDOOR USE: Roaches, Fleas, Ants, Crickets, Grasshoppers, Millipedes, Centipedes, Slugs and other crawling insects.

Dust lightly where insects are normally found and hide, around sewer pipes, windows and doors, foundations, patios, and underneath shrubbery and decks.

HEAT TREATMENT AS NECESSARY

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals.

CAUTION: Avoid breathing dust. Avoid contact with eyes. In case of contact, immediately flush eyes with clean water. Get medical attention if irritation persists. Wear dust mask when using this product during prolonged exposure.

DISPOSAL: When empty, close container and discard in trash. Partially filled container may be disposed of by wrapping in several layers on newspaper and discard in trash.

EcoZone DIATOM DUST INSECT POWDER

Active Ingredient:	
Diatomaceous Earth	90%
Inert Ingredients:	10%
TOTAL	100%

CAUTION

Keep out of reach of Children

NET WEIGHT: 5.28 OZ. (150 GR)

EPA REG. NO. 45220-
EPA EST. NO. 45220-FL-1

See back panel for additional precautionary statements

EcoZone DIATOM DUST INSECT POWDER is made from 100% Diatomaceous Earth. Since DIATOM DUST kills insects mechanically, insects cannot become immune to its properties. When insects come in contact with DIATOM DUST it removes the waxy coating on their exo(outer)skeleton. When this outer protective layer is damaged, the internal moisture of the insect leaks out causing them to dry up) within 48 hours. This long lasting, odorless, non-staining insect powder remains effective as long as it is present.

WHAT ARE DIATOMS?

Diatoms are the fossilized remains of microscopic one-celled plants that live in ocean and fresh water. As the diatom life cycle ends, their silica shell falls to the bottom like snowflakes of stone in countless shapes and designs. For over 150 million years diatoms have existed on earth. Through geological action these trillions of delicate, lacy shells now form whole mountains of a lightweight, white to brown-colored mineral called diatomite, or diatomaceous earth.

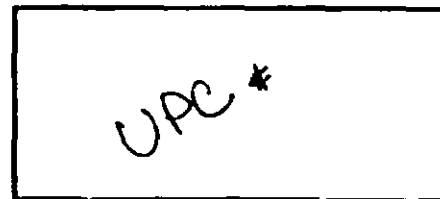

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS:

For best results use a hand or bulb type powder duster. EcoZone DIATOM DUST INSECT POWDER should be applied wherever crawling insects are found. Apply a light coating of the powder as follows.

INDOOR USE: Roaches, Fleas, Ants, Silverfish, Carpet Beetles and other indoor crawling insects.
