

DIRECTIONS FOR USE:

It is violation of a federal law to use this product in a manner inconsistent with its labeling.

Prepare a sanitizing solution by dissolving 4 1/2 oz. or 9 oz. DETSAN 926 per 10 gal. of water. This provides a solution containing 100 ppm or 200 ppm of available chlorine respectively. Clean and rinse items prior to sanitizing. Then place glasses, dishes, equipment or utensils in solution for 2 to 5 minutes. Remove, rinse with potable water and dry. For flat surfaces clean to remove gross filth and heavy soil. Then spread the sanitizing solution and allow to stand 2 to 5 minutes and then rinse with potable water.

The same solution may be used in feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional DETSAN 926 should be added, to maintain a minimum concentration of 100 ppm available chlorine.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT:

Strong oxidizing agent. Mix only with water. Use clean dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL:

Store in cool, dry area away from direct sunlight or heat. In case of spill flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
