NET CONTENTS:

{Directions to be used for swimming pool & spa **algaecide**.}

**SWIMMING POOL AND SPA ALGAECIDE AND ALGAE PREVENTATIVE**

**DIRECTIONS FOR USE:** It is a violation of **Federal Law** to use this product in a manner inconsistent with its labeling. Read entire label and use **strictly** in accordance with precautionary statements and directions.

Aqua-Clear Algae Kill is used to control the **growth** of algae in swimming pools, exterior spas, whirlpools and hot tubs. For maximum effectiveness, pools, spas, whirlpools and hot tubs containing heavy growth of algae, should be cleaned prior to using this product.

For pools having just visible algae growth, add **an initial dose** of 24 to 36 fluid ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 13 to 24 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 4 to 7 fluid ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools or hot tubs having just visible **growth** require an initial dose of 1 to 2½ teaspoons of this product per 100 gallons of water. For treatment of a freshly cleaned whirlpool, spa or hot tub, add initially ½ to 1 teaspoon of this product per 100 gallons of water. Subsequent additions of ¼ to ½ teaspoon of this product per 100 gallons of water should be made **every 5 to 7 days** after initial treatment for maintenance.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorinating chemicals and may reduce the amount of those chemicals normally required. Do not mix this product with concentrated dry or liquid chlorinating products.

{Directions to be used for swimming pool algaecide.}

**SWIMMING POOL ALGAECIDE AND ALGAE PREVENTATIVE**

This product is used to control and prevent the growth of algae in swimming pools [and swimming pools with attached spas] [and swimming pools with attached spas, waterfalls, or decorative fountains]. This product may be used in chlorinated or brominated systems. This product will not foam and prevents all types of pool algae.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. In chlorinated pools, add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add a stain and scale inhibitor to prevent staining of pool surface due to metals. Adjust chlorine residual to 1-3 ppm. When using other products as outlined in directions for this product, always follow directions on those products.

Pools containing heavy growth of algae should be cleaned prior to using this product. For pools having light algae growth, pour directly into pool initial dose of 24 to 36 fluid ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, pour directly into pool initial dose of 13 to 24 fluid ounces of this product per 10,000 gallons of water. Additions of 4 to 7 fluid ounces of this product per 10,000 gallons of water should be made every 5-7 days after initial treatment for maintenance.

{Directions to be used for spa algaecide.}

**ALGAECIDE AND ALGAE PREVENTATIVE FOR SPAS AND HOT TUBS**

This non-foaming product is used to control the growth of algae in spas, whirlpools, and hot tubs. This product may be used in chlorinated or brominated systems.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all equipment is working properly. Backwash the filter system following manufacturer's directions. Adjust pH to between 7.2-7.6. Adjust chlorine residual to 1-3 ppm or bromine residual to 2-4 ppm. When using other products as outlined in directions for this product, always follow directions on those products.

Spas containing heavy growth of algae should be cleaned prior to using this product. Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 1 to 2½ teaspoons of this product per 100 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially ½ to 1 teaspoon of this product per 100 gallons of water. Subsequent additions of ¼ to ½ teaspoon of this product per 100 gallons of water should be made every 5-7 days after initial treatment for maintenance.

{Directions to be used for winter pool algae preventative.}

**WINTER ALGAE PREVENTATIVE FOR SWIMMING POOLS**

This product when used as directed will prevent growth of most algae during the off-season winter months when pools are not in use.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

For pools which have been properly treated during the swimming season and are free of visible algae, add 12 to 20 fluid ounces of this product per 10,000 gallons of water. If at the end of the swimming pool season pool has some visible algae growth, add 24 to 34 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of this product throughout the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the off season.

**STORAGE AND DISPOSAL:** Keep this product in original tightly closed container when not in use. Store in a cool, dry, well ventilated area. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION:** Avoid contact with skin, eyes, or clothing. Harmful if swallowed. Wear goggles or safety glasses and rubber gloves when handling this product.

**PHYSICAL OR CHEMICAL HAZARDS:** Do not mix with other chemicals.
