AQUA CLEAR® RAPID SHOCK

{Optional marketing statements that may be used with swimming pool superchlorination.}

[Quick dissolving granular chlorinating shock and superchlorinator]

[Ideal for vinyl pools]

[Shock and Superchlorination Treatment]

[For all pool surfaces]

[Completely Soluble]

[Lithium Hypochlorite]

[Pool Water Shock Treatment]

[Quick Dissolving Granular Shock Treatment]

{Optional marketing statements that may be used with winterization of swimming pool.}

[Ideal for vinyl pools]

[For all pool surfaces]

[Completely Soluble]

[Lithium Hypochlorite]

[Quick Dissolving Granular Winter Shock Treatment]

[Winter Shock Treatment]

ACTIVE INGREDIENT:	
Lithium Hypochlorite	29%
OTHER INGREDIENTS:	71%
TOTAL INGREDIENTS:	100%
(Available Chlorine: 35%)	

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID: IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

See [back] [side] panel for additional precautionary statements.

EPA EST. # 5185-CAN-1

NET WEIGHT:

{Directions to be used for swimming pool superchlorination.}

This product is a quick-dissolving, non-clouding shock and superchlorinating treatment that will reduce organic contamination in swimming pool water resulting in sparkling, clear water.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Superchlorinate (shock treat) the pool water by broadcasting across the surface of the pool 2 oz. (¼ cup) of this product per 1,000 gallons of water. To prevent damage to pool surface, use an appropriate pool brush to disperse any undissolved granules which may have settled to the bottom of the pool. Superchlorinate in the evening when the pool is no longer in use. Check the chlorine residual the following morning with a suitable test kit. If the chlorine residual is above 3.0 ppm refrain from swimming until the residual has decreased to 3.0 ppm or below.

During the summer months, when the temperature is below 80°F, superchlorinate every two weeks. During especially hot periods and/or when the bather load is heavy, superchlorinate weekly.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of body injury.

{Directions to be used for winterization of swimming pools.}

FOR WINTERIZATION OF SWIMMING POOLS:

This product is effective in providing superchlorination of the pool as part of the winterization process. With the circulation pump operating, apply 2 oz. (1/4 cup) of this product per 1,000 gallons of water. Apply product by broadcasting across the surface of the pool. Allow pool to circulate for 1 hour then add an appropriate algicide for prevention of algae growth. Continue with winterization process, following manufacturer's directions for all equipment. Pools with a mesh cover may require an additional application of this product midway through the winter. For application through the cover, dissolve this product in water then pour mixture into the pool through the cover. Dissolve by adding no more than 1 pound of this product into a minimum of 3 gallons of water. Use a clean plastic pail. Fill pail to desired level with cool, clean water, then add this product. Use a wooden or plastic utensil to mix.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of body injury.

SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact when this product in its un-dissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint.
3. When adding this product to a skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice of others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.

{Storage and Disposal directions when product is sold in bags.}

[STORAGE AND DISPOSAL Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate bag if possible and flood area with large amounts of water to dissolve all material before discarding this bag. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Rinse empty bag thoroughly. Discard in trash. Do not reuse bag.]

{Storage and Disposal directions when product is sold in bottles.}

[STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.]

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER: Corrosive. Causes irreversible eye damage or skin burns. May be fatal if swallowed. Harmful if inhaled. Do not get in eyes, on skin or on clothing. Avoid breathing dust. Wear goggles or safety glasses, protective clothing and rubber gloves when handling. Wash hands thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Do not mix with other chemicals, except water. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water, if necessary.

{Environmental hazards statements for end-use products in containers of less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statements for end-use products in containers of equal to or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]
