AQUA CLEAR® AQUA BURN®

{Optional marketing statements.}

- [Pool Water Shock Treatment]
- [Granular Shock Treatment]
- [Destroys organic contaminants during shock treatment]
- [Destroys Organic Waste and Raises Chlorine Level]
- [Superchlorinator for Swimming Pools]
- [Restores a crystal clarity to pool water]
- [Shock Treatment]
- [Destroys Organic Waste]
- [Kills bacteria]
- [Controls algae]
- [For Multi-Purpose Use]

ACCEPTED
SEP 20 2002

ACTIVE INGREDIENT:	
Calcium Hypochlorite	67.0%
OTHER INGREDIENTS:	33.0%
TOTAL	100.0%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

See [back] [side] panel for additional precautionary statements.

FIRST AID: IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

MANUFACTURED FOR:
AQUA CLEAR INDUSTRIES, INC.
DECATUR, GEORGIA

EPA REG. # 45309-6
EPA EST. # 5185-CAN-1

NET WEIGHT:

Swimming pool water is subject to the build up of organic contaminants. Suntan lotion, perspiration and mucous-like discharges all contribute to this accumulation. These organic wastes should be removed from the pool water periodically. This product effectively reduces organic waste contamination in swimming pool water and restores water clarity.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Shock Treatment: Add this product at the rate of 1 lb. per 10,000 gallons of pool water. With the circulation system of the pool on, broadcast over a large area into the deep end of the pool the entire dosage. Brush any undissolved product off the surface of the pool with a surface compatible brush.

This product should be added to pool when pool is not in use. An initial high chlorine reading will result and pool should not be used until chlorine residual drops to between 1 and 3 ppm as determined by a suitable test kit.

This product is recommended once a week in pools that receive heavy usage and during extended periods of hot weather. Use this product once every two weeks in pools receiving normal usage. Between treatments with this product, maintain chlorine residual between 1 and 3 ppm using a suitable test kit. Follow instructions on label of specific product used for daily chlorination.

For control of algae: This product will destroy many stains caused by algae. Dead algae will come to rest on pool floor, remove by vacuuming. To control algae, add this product at a rate of 1 lb. per 8,000 gallons of pool water, using the application method described above.

Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of body injury.

{Storage and Disposal directions when product is sold in bags.}

[STORAGE AND DISPOSAL Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Rinse empty bag thoroughly. Discard in trash. Do not reuse bag.]

{Storage and Disposal directions when product is sold in bottles.}

STORAGE AND DISPOSAL: Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse. For skin or eye contact, or if dust/fumes are inhaled, immediately follow first aid instructions on front label panel.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.
