

DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
Corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID (PRACTICAL TREATMENT)
If swallowed, vomit. Do not induce vomiting. If acid is on skin, followed by rinse off or coating off. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eye get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS
Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals, or any foreign matter, may start a chemical reaction with generation of heat, evolution of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharge containing this pesticide into public waters. For guidance, contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS (PLEASE READ)
1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undiluted state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pail. When adding this product to skimmer make sure pump is on and gator is circulating so that material is drawn into recirculation system. Do not allow build-up of dry material in skimmer as gases may generate and cause an explosion.

Aqua Clear Hydro Tabs™

BUFFERED, QUICK DISSOLVE, STABILIZED CHLORINATING TABLETS
(one tablet per 10,000 gals., per day)

ACTIVE INGREDIENT: Trichloro-s-triazinetriene 70%*
INERT INGREDIENT 30%

* provides 59% available chlorine

KEEP OUT OF REACH OF CHILDREN

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Adjust water pH to 7.2-7.8 as determined by a test kit. For pools with copper plumbing best pH factor is 7.6-7.8.
2. If the pool has not been previously stabilized, add conditioner and stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
3. Adjust and maintain the total alkalinity between 80-120 ppm as determined by a suitable test kit.
4. In newly filled pools, follow steps 1 through 3 and then superchlorinate the pool using an appropriate shock treatment (Aqua Shock™ or Aqua Shock-35™) to establish a chlorine residual of 1.0-3.0 ppm.
5. For daily maintenance add 2 oz. of Hydro Tabs™ (one tablet per 10,000 gallons of pool water. Add tablets in pool skimmer or use a floating chlorinating tablet dispenser.
6. If it may be necessary to periodically shock (superchlorinate) the pool water, if there is a heavy bather load, the chlorine residual slips below 0.2 ppm, appearance of algae, burning sensation to the eyes or after a heavy rain, shock the pool as in step 4 (above) or use a similar dosage of Hydro Tabs™.
7. At all times maintain a free chlorine residual of between 1-3 ppm as determined by a suitable test kit.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container in an open area if possible, and flood with large amount of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area or bury in a safe place.
