**AQUA CLEAR®EXTRA-GRAN**

- [Concentrated Chlorinating Granules]
- [Quick-dissolving]
- [Kills Bacteria]
- [Controls Algae]
- [Destroys Organic Contaminates]

ACTIVE INGREDIENT:  
 Sodium dichloro-s-triazinetrione                    97%  
 OTHER INGREDIENTS                                            3%  
 TOTAL INGREDIENTS                                            100%  
 (Available Chlorine 62%)

**KEEP OUT OF REACH OF CHILDREN**  
**DANGER**

**FIRST AID: IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]**

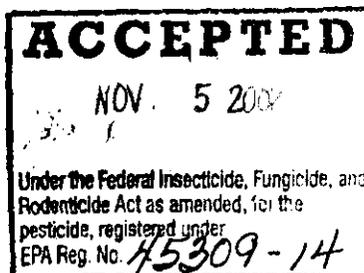

**Note to Physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

See [back] [side] panel for additional precautionary statements.

MANUFACTURED FOR:  
 AQUA CLEAR INDUSTRIES, INC.  
 DECATUR, GEORGIA

EPA REG. # 45309-14  
 EPA EST. # 5185-CAN-1

NET WEIGHT:

This product is designed to dissolve quickly and completely providing a steady source of available chlorine in swimming pools to control the growth of algae, kill bacteria and destroy organic contaminants.

**DIRECTIONS FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Adjust the pH of the pool water to between 7.2 and 7.8 as determined by a suitable test kit. Adjust the pool water alkalinity to between 100 and 125 ppm. In new pools (pools that have been filled with fresh water), add chlorine stabilizer at the rate of one pound per 5,000 gallons of water. This addition of chlorine stabilizer will result in a chlorine stabilizer level of approximately 30 ppm. Regular use of [Aqua Clear Extra-Gran] [this product] will provide any needed stabilizer makeup.

For a new pool or spring start-up, superchlorinate (shock treat) the pool water to 8 ppm chlorine residual by using an appropriate shock treatment as directed on the product label, as determined by the use of a suitable test kit. Allow the chlorine residual to return to the 1.0 to 3.0 ppm range as determined by a suitable test kit.

To maintain the pool, add [Extra-Gran] [this product] at the rate of 1 ounce per 5,000 gallons of water. Add [Extra-Gran] [this product] directly into the water in the deep end of the pool. Test the pool water with a chlorine test kit, more or less [Extra-Gran] [of this product] may be needed to maintain a chlorine residual of between 1.0 to 3.0 ppm. Chlorine residual should be checked at least once a day. To prevent damage to pool surface, use a pool brush to disperse granules that may have settled to the bottom of the pool. **NEVER ALLOW UNDISSOLVED PRODUCT TO REST IN CONTACT WITH BLEACHABLE POOL SURFACES.**

During especially hot periods and after heavy bather loads, superchlorinate (shock treat) the pool water to 8.0 ppm as directed above. Failure to superchlorinate can lead to growth of pool water algae. If algae are present in the pool, use a concentrated algaecide as directed on the product label.

**Reentry into treated swimming pools is prohibited above levels of 3 ppm chlorine due to risk of body injury.**

**STORAGE AND DISPOSAL** Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS DANGER:** Corrosive: Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor, or mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

**PHYSICAL OR CHEMICAL HAZARDS STRONG OXIDIZING AGENT:** Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

*{Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight).}*

**[ENVIRONMENTAL HAZARDS** This pesticide is toxic to fish and aquatic organisms.]

*{Environmental hazards statement for end-use products in containers of equal to or greater than 5 gallons (liquid) or equal to or greater than 50 pounds (solid, dry weight).}*

**[ENVIRONMENTAL HAZARDS** This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]
