

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45309-15	DATE OF ISSUANCE JAN 27 1986
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Aqua Clear 'Mini' Rapid Tabs	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Aqua Clear Industries, Inc. 615 New London Road P.O. Box 418 Ithaca, NY 14850		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:		
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.		
2. Add the phrase "EPA Registration No. 45309-15" to your label before you release the product for shipment.		
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.		
If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.		
A stamped copy of the label is enclosed for your records.

DANGER

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID (PRACTICAL TREATMENT):

If swallowed feed grain, cooked cereal, or bread soaked in milk. Followed by olive oil or cooking oil. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS:

Strong oxidizing agent. Do not use moist or damp vessels. Combination with moisture, dirt, organic matter, or other chemicals, or any foreign matter, may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has a powerful chlorine odor. Hold away from face when mixing to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and wet masonry or painted surfaces will result in bleaching of the masonry or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is never complete to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If the product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or niches that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.
6. This product, because of its potent formication, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pool. When adding this product a skimmer make sure pump is on and water is circulating so that chlorine is drawn into recirculation system. Do not allow build-up of chlorine in skimmer as gases may generate and cause an explosion.

Aqua Clear®

Mini Rapid Tabs

1 oz. Fast Action
Stabilized Chlorinating Tablets
(With pH Buffer)

ACTIVE INGREDIENTS:
Trichloro-s-triazinetrione
Sodium Carbonate
*provides 59% available chlorine

KEEP OUT OF REACH OF CHILDREN

DANGER
SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS
NET WEIGHT: 25 LBS.

Under the Federal Insecticide, Fungicide, and Rodenticide Act, registered under EPA Reg. No. 43389-PC-338A

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Adjust water pH to 7.2 to 7.5 as determined by test kit. For pools with copper plumbing best pH 7.5 - 7.8.
2. If the pool has not been previously stabilized with conditioner and stabilizer (cyanuric acid). Follow directions for use on the label for that product.
3. Adjust and maintain the total alkalinity between 100 and 120 ppm as determined by a suitable test kit.
4. In newly filled pools, follow steps 1 through 3, then superchlorinate the pool using an appropriate shock treatment (Aqua Shock™ or Aqua Shock™) to establish a chlorine residual of 1.0 - 3.0 ppm.
5. For daily maintenance add 1 oz. (One Mini Rapid Tab) per 5,000 gallons of pool water. Add tablet to skimmer or use a floating chlorinating tablet.
6. It may be necessary to periodically shock chlorinate the pool water. If there is a heavy load, the chlorine residual slips below 0.5 ppm, or after a heavy rain, shock the pool as in step 4 (use a similar dosage of Rapid Tabs).
7. At all times maintain a free chlorine residual between 1 - 3 ppm as determined by a suitable test kit.

STORAGE AND DISPOSAL

Keep product dry in a tightly closed container in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, do not store in an open area if possible, and flood with a large amount of water. Do not reuse empty container. Empty container thoroughly with water to dilute material before discarding. Place in trash collection container in approved landfill area or bury in a trench. EPA Est. No. 46309-NY-01
