DANGER

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

FIRST AID (PRACTICAL TREATMENT):

If swallowed, ~~do not induce vomiting~~. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before reuse.

CHEMICAL HAZARDS:

Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter, or other chemicals, or any foreign matter, may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.

SPECIAL PRECAUTIONS (PLEASE READ)

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint.
3. When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pan. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow build-up of dry material in skimmer as gases may generate and cause an explosion.

Safe-T-Chlor™ Fast Dissolving Tablets

- Concentrated, Stabilized Formula ●
- Use Only 1 Two Ounce Tablet per ●
10,000 Gallons

ACTIVE INGREDIENT:

Sodium Dichloro-s-triazinetriene 99.0%*

INERT INGREDIENT

1.0%

*provides 55% available chlorine

DIRECT

It is a violation of Federal law if this product is used in a manner inconsistent with its label.

Adjust the pH of the pool water to between 7.2 and 7.6. If the pH is determined by a reliable test kit, the alkalinity should be between 100 and 150 ppm. If the pool water has been treated with fresh water, the rate of one (1) pound per 5,000 gallons of pool water. Chlorine Stabilizer will raise the residual to approximately 30 ppm. Residual will provide any needed chlorine.

Before initiating daily chlorine treatment, the pool water by adding 8,000 gallons of pool water. A residual is obtained, as determined by a reliable chlorine test kit. Allow the residual to range as directed on the label.

For daily use, add SAFE-T-CHLOR™ 2-ounce tablet per 10,000 gallons of pool water through a chlorine tablet dispenser. Operating before adding a skimmer. Test the pool water with a reliable SAFE-T-CHLOR™ Tablet Chlorine Residual of between 1.0 and 1.5 ppm.

During especially hot weather, use superchlorinate (shock treatment) as directed above. Failure to use superchlorinate may result in the growth of pool water algae. Use Aqua Clear™ Algae Killer.

STORAGE

Keep product dry in a tight container. Store in a cool, dry, well-ventilated area. In case of an emergency, open area if possible, and do not reuse empty container. Wash with water to dissolve all residue. Collect and dispose of trash.
