Swim Free Charge

A solution of bromide salts that is part of a two product system for disinfection of water in spas, hot tubs, and therapeutic pools that must be used with RELEASE in order to produce BROMINE sanitizer.

ACTIVE INGREDIENT:

Sodium Bromide 35%

OTHER INGREDIENTS: 65%

TOTAL INGREDIENTS: 100%

KEEP OUT OF REACH OF CHILDREN

CAUTION

See [back] [side] panel for additional precautionary statements.

AQUA CLEAR INDUSTRIES, INC.

P.O. BOX 1489

DECATUR, GA 30031

EPA REG. NO. 45309-43

EPA EST. NO. 5185-CAN-001

NET CONTENTS:

CHARGE is a clear solution that forms a stable reservoir of bromide salts in the spa and hot tub water. The regular addition of RELEASE will activate the bromide salts to form bromine.

CHARGE is not a disinfectant. It is only after RELEASE has been added to water containing CHARGE that the bromide salts are activated to form bromine.

CHARGE is most effectively used, when it is part of the Swim Free spa/hot tub water maintenance program. SPARKALIZER PLUS should be used on a regular basis to help control clarity and mineral scaling. FOAM-BUSTER should be used on a regular basis to help eliminate and prevent unsightly foaming.

CHARGE is stable and effective at all spa or hot tub temperatures. CHARGE is compatible with all chemicals that are normally used to treat spa or hot tub water, once it is at use dilution. Never mix different chemicals directly together prior to application. All spa or hot tub chemicals must be added directly to the water.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

An initial dose of CHARGE must be added to the water each time the spa or hot tub is filled or refilled. Thereafter, a weekly maintenance dose of CHARGE must be added to the water, in order to maintain a stable reservoir of bromide salts.

In order to protect the water from possible discoloring due to the presence of dissolved minerals, add the correct amount of SPARKALIZER PLUS to the water. Follow the directions on the package.

INITIAL DOSE: Make sure that the water is circulating and add 4 fluid ounces of CHARGE for each 250 gallons of water, or fraction thereof, directly into the spa or hot tub water. **In order to activate bromine from CHARGE, regular additions of RELEASE must be added to the water. RELEASE should be used according to the instructions on the RELEASE label.**

MAINTENANCE DOSE: The maintenance dose must be added on a weekly basis in order to replenish the reservoir of bromide salts. Make sure that the water is recirculating and add 1 fluid ounce of CHARGE, for each 250 gallons of water or fraction thereof. **In order to activate the reservoir of bromide salts, continue with the regular additions of RELEASE.**

Loss of water from splashout, backwashing or leakage may require more frequent additions of CHARGE.

Monitor the water with a suitable test kit for available bromine after each addition of RELEASE and more frequently if necessary to assure a bromine residual of 3 to 5 parts per million. Do not use the spa/hot tub if the residual is above or below this range.

STORAGE AND DISPOSAL Keep this product in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.
