AQUA CLEAR WINTER ALGAECIDE

{Optional marketing statements that may be used with swimming pool algaecide}

[For all Gunite and Vinyl Lined Pools]

[Prevents algae]

[[Prevents] [controls] green and blue-green colored algae]

[Prevents and controls algae]

[Suitable for all pool types]

[Weekly use prevents algae growth]

[Concentrated formula compared to [standard] 10% [algaecide] {or} [algicide]]

[A swimming pool [algaecide] {or} [algicide]]

[Economical 20% algae preventative]

[[Green] [and] [blue-green] Algae control for above ground pools]

[[Green] [and] [blue-green] Algae control for in-ground pools]

[Keeps water clear and free of visible [green] [blue-green] algae]

[Use full strength]

[Twice as concentrated as [ordinary] 10% algaecide]

[1/2 gallon of 20% [algaecide] {or} [algicide] treats the same amount of pool water as 1 gallon of 10%]

[algaecide] {or} [algicide]]

[Use weekly]

[Weekly use]

{The following must appear on front panel for swimming pool algaecide for small volume pools}

[Use only with pools that have a water re-circulating system (pump) and filter] {Note: This statement will always appear on the front panel when directions for small volume pools is used on label.}

[Suitable for pools under 5,000 gallons]

[For use in pools under 5,000 gallons]

NET CONTENTS:

{Directions to be used for swimming pool algaecide}

WHY TO USE THIS PRODUCT: [Aqua Clear Winter Algaecide] {or} [This product] efficiently and economically reduces green and blue-green algae [growth] in pools. It will not harm pool surfaces or equipment.

IMPORTANT NOTES:

- 1. Always apply this and other pool treatment chemicals separately, never combine them.
- 2. When using other products as outlined in directions for this product, always follow directions on those products.
- 3. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use, all affect the rate of chlorine loss. Always maintain residual chlorine level between 1-3 ppm.
- 4. This product may foam and therefore should not be used for spa treatment or in pools with attached spas or jetted returns.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE YOU BEGIN:

- 1. Ensure all pool equipment is working properly. Clean or backwash the filter following manufacturer's directions.
- 2. Adjust stabilizer levels to 30-50 ppm by adding Stabilizer.
- 3. Check water alkalinity, pH and calcium hardness with a test kit or test strip. Adjust alkalinity to 80-125 ppm for plaster pools, 125-150 ppm for vinyl or fiberglass pools by adding an alkalinity increaser. Adjust pH to 7.2 7.6 by adding a pH decreaser to lower pH, or by adding a pH increaser to raise pH. Adjust calcium hardness to 200-275 ppm for plaster pools, 175-225 ppm for vinyl or fiberglass pools by adding a calcium hardness increaser.
- 4. Check and adjust residual chlorine level to desirable range of 1-3 ppm.

NOW USE THIS PRODUCT:

Initial Application/Start Up Dose:

- [1.] For initial application, [or when visible algae is present,] add [13 fluid ounces per 10,000 gallons], {or} [6.5 fluid ounces per 5,000 gallons] of pool water by pouring this product directly into the water along the edge of the pool (in deep area if present). This will provide 2 ppm active ingredient in the water. With pump on, wait at least 15 minutes after application before entering pool.
- [2. If necessary, the next day, brush dead algae off pool surfaces so it can be filtered away. Repeat step 1 to remove additional algae.]

Maintenance Application:

To prevent algae growth add this product every 5-7 days or after heavy rain at a rate of [3 fluid ounces per 10,000 gallons], {or} [1.5 fluid ounces per 5,000 gallons], of pool water by pouring this product directly into the water along the edge of the pool (in deep area if present). This will provide 0.5 ppm active ingredient in the water. With pump on, wait at least 15 minutes after application before entering pool.

{Following chart is optional. All or some of the swimming pool capacities may be incorporated.}

Initial	Weekly Maintenance Dose
Treatment	
6.5 fl. oz.	1.5 fl. oz.
13 fl. oz.	3 fl. oz.
26 fl. oz.	6 fl. oz.
32.5 fl. oz.	7.5 fl. oz.
39 fl. oz.	9 fl. oz.
	Treatment 6.5 fl. oz. 13 fl. oz. 26 fl. oz. 32.5 fl. oz.

{Directions to be used for swimming pool algaecide for small volume pools}

WHY TO USE THIS PRODUCT: [Aqua Clear Winter Algaecide] {or} [This product] efficiently and economically reduces green and blue-green algae [growth] in smaller volume pools. It will not harm pool surfaces or equipment.

IMPORTANT NOTES:

- 1. Use only with pools that have a water re-circulating system (pump) and filter.
- 2. Always apply this and other pool treatment chemicals separately, never combine them.
- 3. When using other products as outlined in directions for this product, always follow directions on those products.
- 4. If you use a measuring spoon, use a clean, dedicated spoon to dose the appropriate amount of product into the pool. Keep the dosage spoon stored out of reach of children.
- 5. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use, all affect the rate of chlorine loss. Always maintain residual chlorine level between 1-3 ppm.
- 6. This product may foam and therefore should not be used for spa treatment or in pools with jetted returns.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE YOU BEGIN:

- 1. Ensure all pool equipment is working properly. Clean or backwash the filter following manufacturer's directions.
- 2. Adjust stabilizer levels to 30-50 ppm by adding Stabilizer.
- 3. Check water alkalinity, pH and calcium hardness with a test kit or test strip. Adjust alkalinity to 125-150 ppm by adding an alkalinity increaser. Adjust pH to 7.2 7.6 by adding a pH decreaser to lower pH, or by adding a pH increaser to raise pH. Adjust calcium hardness to 175-225 ppm by adding a calcium hardness increaser.
- 4. Check and adjust residual chlorine level to desirable range of 1-3 ppm.

NOW USE THIS PRODUCT:

Initial Application/Start Up Dose:

- [1.] For initial application, [or when visible algae is present,] add 1.3 fluid ounces (2½ tablespoons) per 1,000 gallons of pool water by pouring this product directly into the water along the edge of the pool (in deep area if present). This will provide 2 ppm active ingredient in the water. With pump on, wait at least 15 minutes after application before entering pool.
- [2. If necessary, the next day, brush dead algae off pool surfaces so it can be filtered away. Repeat step 1 to remove additional algae.]

Maintenance Application:

To prevent algae growth add this product every 5-7 days or after heavy rain at a rate of 0.3 fluid ounces (2 teaspoons) per 1,000 gallons of pool water by pouring this product directly into the water along the edge of the pool (in deep area if present). This will provide 0.5 ppm active ingredient in the water. With pump on, wait at least 15 minutes after application before entering pool.

{Following chart is optional. All or some of the swimming pool capacities may be incorporated.}

teaspoons) 0.075 fl. oz. (½ teaspoon) teaspoons) 0.15 fl. oz. (1 teaspoon)
teaspoons) 0.15 fl. oz. (1 teaspoon)
tablespoons) 0.3 fl. oz. (2 teaspoons)
oz. 0.45 fl. oz. (1 tablespoon)
oz. 0.6 fl. oz. (4 teaspoons)
oz. 0.75 fl. oz. (5 teaspoons)
oz. 0.9 fl. oz. (2 tablespoons)

{Directions to be used for swimming pool winter algaecide}

WHY TO USE THIS PRODUCT: [Aqua Clear Winter Algaecide] {or} [This product] is an efficient and economical way to prevent green and blue-green algae in swimming pools during the winter months, when the pool is not in use.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

For best results, the pool should be free of algae before adding [Aqua Clear Winter Algaecide] {or} [this product] and a solid or close mesh cover should be used to keep debris from accumulating in the pool.

Add [Aqua Clear Winter Algaecide] {or} [this product] at the rate of [(1) half (½) gallon per 25,000 gallons] {or} [(1) quart per 12,500 gallons] {or} [(1) pint per 6,250 gallons] of pool water by pouring this product directly into the water along the edge of the pool (in deep area if present). This will provide 4 ppm active ingredient in the water. This will help control algae growth over the winter months and make for easier clean-up in the spring.

Make sure the pump is on and circulating water at the time of algaecide addition. Allow pump to operate three (3) to six (6) hours after adding algaecide. Then cover the pool. For proper winterization of swimming pool equipment, refer to manufacturers instructions.

To reopen pool in the spring, follow start up procedures for your pool's equipment operations and chemical treatment program.

STORAGE AND DISPOSAL Keep this product tightly closed in original container when not in use. Store in a cool, dry, well ventilated locked area away from heat or open flame. Do not reuse container. Wrap and discard in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS KEEP OUT OF REACH OF CHILDREN. DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses and rubber gloves and protective clothing when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. [IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [1-877-800-5553] [telephone number supplied by supplemental registrant].]

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.
