# YELLOW TREAT® ALGICIDE

**Rescue treatment for use to control blooms of  
yellow, mustard, red, pink and green algae,  
pink and white slime, and  
pink and white water mold  
in any type pool or spa**

### INGREDIENTS

Active ingredient	
Sodium bromide .....	88.8%
Inert ingredients .....	11.2%
Total .....	100.0%

Contains no ingredients that will stain pools or spas.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

See back panel for additional precautionary statements.

Net Wt.

EPA Reg. No. 45337-8  
EPA Est. No. 45337-CA-1

(Back Panel)

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER.** Corrosive. Causes skin burns. Causes substantial but temporary eye injury. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles, face shield, or safety glasses. Wear protective clothing and rubber gloves. Wash thoroughly with soap and water after handling concentrate. Remove contaminated clothing and wash clothing before reuse.

**STATEMENT OF PRACTICAL TREATMENT (FIRST AID)**

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF IN EYES:** Hold eyelids open and flush with a steady gentle stream of water for 15 minutes. Get medical attention.

**IF SWALLOWED:** Call a physician or poison control center. Drink promptly a large quantity of water. Avoid alcohol. Do not give anything by mouth and do not induce vomiting.

**Note to Physicians:** Probable mucosal damage may contraindicate the use of gastric lavage.

**PHYSICAL AND CHEMICAL HAZARDS**

Reducing agent. Avoid breathing dust from this product. Do not allow this product to come in contact with acids or oxidizing agents under conditions other than as described in the directions for use. Add this product to water only. Negligent mixing of this product with acids or oxidizing agents may cause the release of poisonous, corrosive hydrogen bromide or bromine gas.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and aquatic organisms.

3047

**DIRECTIONS FOR USE**

It is a violation of federal law to use this product in a manner inconsistent with labeling. Always add Yellow Treat® directly to pool or spa.

**TO CONTROL BLOOMS OF YELLOW AND MUSTARD ALGAE IN SWIMMING POOLS AND SPAS TREATED WITH CHLORINATING OR BROMINATING PRODUCTS:**

**(FOR 2-LB BOTTLE CONTAINING SOLID PRODUCT)**

**STEP 1:** For swimming pools, add 5 ounces (one complete level capful) of Yellow Treat® per 10,000 gallons of water. Broadcast Yellow Treat® directly onto pool water surface.

For spas, use the equivalent amount of 1/4 ounce of Yellow Treat® per 500 gallons. Broadcast Yellow Treat® directly onto spa water surface.

**STEP 2:** Brush pool or spa.

**STEP 3:** Independent of the chlorine level, immediately add liquid or dry chlorinating product for super-chlorination. Use the recommended dosage rate for super-chlorination from the label of an EPA-registered chlorine product.

**STEP 4:** Before swimming, use test kit for measuring the chlorine level, as directed on your chlorinating product label. Do not enter water or swim until the chlorine residual drops to 3 ppm.

**STEP 5:** Chlorinate continuously with tablets or a chemical feeder. Add slow dissolving tablets (such as trichloro-s-triazinetrione) during summer and heavy swimming conditions. Test chlorine with OTO (yellow chlorine test) and let stand for 5 minutes before reading as directed on your chlorinating product.

**STEP 6:** To prevent recurrence of yellow and mustard algae and to maintain crystal clear water, No Mor Problems® may be used in conjunction with chlorinating or brominating products. Follow the Directions For Use for No Mor Problems®. Maintain the chlorine or bromine level recommended on the chlorinating or brominating product label.

**STEP 7:** Repeat above steps if algae are visible in pool or spa.

**TO CONTROL BLOOMS OF PINK, RED AND GREEN ALGAE, PINK AND WHITE SLIME, AND PINK AND WHITE WATER MOLD IN SWIMMING POOLS AND SPAS**

DEC 17 1999  
Under the Federal Insecticide, Fungicide, and  
Rodenticide Act as amended, for the  
pesticide, registered under  
EPA Reg. No. 45337-8

Master Label - December 17, 1999  
Page 4 of 7

**TREATED WITH CHLORINATING OR BROMINATING PRODUCTS:**

- STEP 1: For swimming pools, add 1 pound of Pink Treat® per 10,000 gallons of water. Broadcast Pink Treat® directly onto pool water surface.  
  
For spas, use the equivalent amount of 1 ½ ounces per 500 gallons of water. Broadcast Pink Treat® directly onto spa water surface.
- STEP 2: Brush pool or spa.
- STEP 3: Independent of the chlorine level, immediately add liquid or dry chlorinating product for super-chlorination. Use the recommended dosage rate for super-chlorination from the label of an EPA-registered chlorine product.
- STEP 4: Before swimming, use test kit for measuring the chlorine level, as directed on your chlorinating product label. Do not enter water or swim until the chlorine residual drops to 3 ppm.
- STEP 5: Chlorinate continuously with tablets or a chemical feeder. Add slow dissolving tablets (such as trichloro-s-triazinetrione) during summer and heavy swimming conditions. Test chlorine with OTO (yellow chlorine test) and let stand for 5 minutes before reading.
- STEP 6: To prevent recurrence of pink, red and green algae, pink and white slime, and pink and white water mold, and to maintain crystal clear water, No Mor Problems® may be used in conjunction with chlorinating or brominating products. Follow the Directions For Use for No Mor Problems®. Maintain the chlorine or bromine level recommended on the chlorinating or brominating product label.
- STEP 7: Repeat above steps if algae are visible in pool or spa.

**TO CONTROL BLOOMS OF GREEN ALGAE IN SWIMMING POOLS AND SPAS TREATED WITH BIGUANIDE, BAQUACIL OR SOFTSWIM:**

- STEP 1: For each 20,000 gallons of water, add a TOTAL of 2 lbs. Yellow Treat®. Add 1 lb. Yellow Treat® to the skimmer and 1 lb. Yellow Treat® to the pool or spa.
- STEP 2: Brush pool or spa.
- STEP 3: Independent of the peroxide level, immediately add ½ gallon peroxide per 10,000 gallons water.
- STEP 4: Wait 1 hour before entering pool or spa. Observe the required waiting period for the Biguanide, Baquacil, or Softswim product used with Yellow Treat® if

5 of 7

greater than 1 hour.

STEP 5: To prevent recurrence of green algae and to maintain crystal clear water, No Mor Problems® may be used in conjunction with Biguanide, Baquacil, or Softswim. Follow the Directions For Use for No Mor Problems®. Maintain the hydrogen peroxide level recommended on the Biguanide, Baquacil, or Softswim label.

STEP 6: Repeat above steps if algae are visible in pool or spa.

607

**TO CONTROL BLOOMS OF YELLOW, MUSTARD, RED AND PINK ALGAE, PINK AND WHITE SLIME, AND PINK AND WHITE WATER MOLD IN POOLS AND SPAS TREATED WITH BIGUANIDE, BAQUACIL OR SOFTSWIM:**

- STEP 1: For each 20,000 gallons of water, add a TOTAL of 2 lbs. Yellow Treat®, add 1 lb. Yellow Treat® to the skimmer and 1 lb. Yellow Treat® to the pool or spa.
- STEP 2: Brush pool or spa.
- STEP 3: Independent of the peroxide level, for each 10,000 gallons water, immediately add ½ gallon peroxide to the pool, and with the pump running add ½ gallon to the skimmer for an initial shock treatment.
- STEP 4: Wait 1 hour before entering pool or spa. Observe the required waiting period for the Biguanide, Baquacil or Softswim product used with Yellow Treat® if greater than 1 hour.
- STEP 5: To prevent recurrence of yellow, mustard, red and pink algae, pink and white slime, and pink and white water mold and to maintain crystal clear water, No Mor Problems® may be used in conjunction with Biguanide, Baquacil, or Softswim. Follow the Directions For Use for No Mor Problems®. Maintain the hydrogen peroxide level recommended on the Biguanide, Baquacil or Softswim label.
- STEP 6: Repeat above steps if algae are visible in pool or spa.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by the use, storage or disposal of this product.

**STORAGE:** Store in a dry, well ventilated area out of the reach of children and away from oxidizers. Keep container closed when not in use.

**Pesticide Disposal**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal**

Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.
