US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS 767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45337-10	DATE OF ISSUANCE May 11 1995
	TERM OF ISSUANCE Conditional	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT Take Out Algicide	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
United Chemical Corporation P.O. Box 429 3741 E. Telegraph Road Piru, CA 93040		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:		
1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.		
2. Make the labeling changes listed below before you release the product for shipment:		
a. Add the phrase "EPA Registration No. 45337-10."		
b. Revise the product description statement below the product name to read: "For use in pools and spas to convert from treatment with Biguanide, Baquacil or Softswim to treatment with ionization or chlorinating or brominating compounds".		
c. On page 3 of the draft label, revise the descriptive statement to read as follows: "To convert pools and spas from treatment with Biguanide, Baquacil or Softswim to ionization treatment or treatment with chlorinating or brominating compounds".		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE MAY 11 1995

d. Revise the instructions for Step 3 on page 3 of the label in the following manner: "Introduce chlorinating component to pool or spa system: Follow the use instructions on the label of an EPA registered chlorinating product (such as trichloro-s-triazinetrione or sodium hypochlorite). Maintain no more than a 0.3 ppm chlorine or bromine residual."

e. Insert the EPA Reg. No. (45337-11) for the product listed in the Directions for Use section, "No More Problems". (Step 4, pg. 3)

f. Revise the end of the first sentence in Step 7 on page 3 to read: "... in addition to chlorinating or brominating compounds."

g. Revise the last sentence of the paragraph at the bottom of page 3 of the label to read: "Observe the required waiting period for the chlorinating or brominating product used with Take Out if greater than one hour."

h. Revise the Statement of Practical Treatment (page 1) in the following manner:

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED: Drink large quantities of water. Do not induce vomiting. Avoid alcohol. Call physician or Poison Control Center.

IF IN EYES: Flush immediately with plenty of cold water for at least 15 minutes and seek medical attention at once.

IF ON SKIN: Flush with cold water for at least 10 - 15 minutes. Seek medical attention if irritation persists.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Ruth G. Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (7505C)

ACCEPTED
with COMMENTS
to EPA Letter Dated:

MAY 11 1995

(Front Panel)

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended for the pesticide
registered under EPA Reg. No.
45337-10

TAKE OUT® ALGICIDE

**FOR USE IN POOLS AND SPAS TO CONVERT FROM TREATMENT
WITH BIGUANIDE, BAQUACIL OR SOFTSWIM TO TREATMENT
WITH CHLORINE, BROMINE OR IONIZATION**

FOR USE WITH POOL STAIN TREAT® AND NO MOR PROBLEMS®

NO DRAINING NECESSARY

MAY SWIM WHILE CONVERTING THE POOL OR SPA

WATER WILL CLEAN UP TO BE SPARKLING CLEAR

INGREDIENTS

Active ingredient		
Sodium bromide	10.4%	
Inert ingredients	89.6%	
Total	100.0%	

Contains no ingredients that will stain pools or spas.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

See back panel for additional precautionary statements.

Contents: 1 Quart

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. Avoid contact with eyes. In case of contact, immediately flush eyes with plenty of water. Get medical attention if irritations persists. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT (FIRST AID)

IF IN EYES: Flush immediately with plenty of water for at least 15 minutes and get medical attention at once.

PHYSICAL AND CHEMICAL HAZARDS

Reducing agent. Avoid breathing dust from this product. Do not allow this product to come in contact with acids or oxidizing agents under conditions other than as described in the directions for use. Add this product to water only. Negligent mixing of this product with acids or oxidizing agents may cause the release of poisonous, corrosive hydrogen bromide or bromine gas.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with labeling. Always add Take Out® directly to pool or spa.

TO CONVERT POOLS AND SPAS FROM TREATMENT WITH BIGUANIDE, BAQUACIL OR SOFTSWIM TO TREATMENT WITH CHLORINE, BROMINE OR IONIZATION:

- STEP 1: Add 2 pounds Pool Stain Treat® per 15,000 gallons of pool or spa water. Ignore Step 2 of the Pool Stain Treat® Directions for Use; follow all other Directions for Use. Pool Stain Treat® may be added with or without the pump running.
- STEP 2: Add 32 fluid ounces Take Out® per 15,000 gallons of water.
- STEP 3: Place one 3-inch trichloro-s-triazinetriene tablet into a zip-lock bag, cut the corners off the bag, and place the bag with tablet into skimmer. Maintain no more than a 0.3 ppm chlorine or bromine residual.
- STEP 4: Once each week:
- A. Make sure there is still chlorine feeding the pool, one tablet at a time (0.3 ppm or less) per 20,000 gallons water.
 - B. Add No Mor Problems® as described in the Directions for Use for maintenance treatments on the label for No Mor Problems®.
 - C. Check the biguanide, Baquacil or Softswim level.
- STEP 5: When the biguanide, Baquacil or Softswim level drops to 0.0 ppm, increase the chlorine level to 0.5 ppm.
- STEP 6: Fill a clean bucket with approximately 1 gallon of water. Add 1 teaspoon of a chlorine shock treatment product. If the water in the bucket turns color, and go back to Step 3. If the water stays clear, go to Step 7.
- STEP 7: When the biguanide, Baquacil or Softswim level drops to 0.0 ppm at all times for 2-3 weeks, the pool or spa may be maintained using No Mor Problems® in addition to chlorine or bromine. Follow the Directions for Use for these products.
- NOTE: If pool or spa starts to turn yellow or brown, this indicates a false biguanide reading. Go back to Step 3 for 2-3 more weeks.

Wait 1 hour before entering pool or spa. Observe the required waiting period for the chlorine or bromine product used with Take Out® if greater than 1 hour.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by the use, storage or disposal of this product.

STORAGE: Store in a dry, well ventilated area out of the reach of children and away from oxidizers. Keep container closed when not in use.

DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
