- 2. You are required to comply with the data requirements described in the DCI Order identified below:
 - a. Sodium Bromide GDCI-013907-1169

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCI Order listed above, you may contact the Reevaluation Team Leader (Team 36): http://www2.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-antimicrobial-division

- 3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, "EPA Reg. No. 45337-16."
- 4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 08/20/2019
- Alternate CSF 1 dated 08/20/2019

If you have any questions, please contact Wanda Henson by phone at (703) 308-6345, or via email at <u>henson.wanda@epa.gov</u>

Sincerely,

Demson Fuller, Product Manager 32 Regulatory Management Branch II Antimicrobials Division (7510P) Office of Pesticide Programs

YELLOW TREAT[®] 2 Algicide

Rescue treatment for use to control blooms of yellow and mustard algae in swimming pools or spas treated with chlorinating or brominating products

ACTIVE INGREDIENT:	
Sodium bromide	57.60%
OTHER INGREDIENTS	<u>32.40</u> %
TOTAL 10	0.00%

Won't Stain

KEEP OUT OF REACH OF CHILDREN CAUTION

See back panel for First Aid and additional precautionary statements

EPA Reg. No.: 45337- EPA Est. No.: 45337-CA-1

Net Contents: 2 pounds (907.2 grams) sold by weight, not volume

Page 1 of 4 September 20, 2019

	FIRST AID
IF SWALLOWED:	- Call a poison control center or doctor immediately for treatment advice.
	- Have person sip a glass of water if able to swallow.
	- Do not induce vomiting unless told to do so by a poison control center or doctor.
	- Do not give anything by mouth to an unconscious person
IF ON SKIN	- Take of contaminated clothing.
	- Rinse skin with plenty of water for 15-20 minutes.
	- Call a poison control center or doctor for treatment advice.
IF IN EYES	- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
	- Remove contact lenses, if present, after the first 5 minutes, then continue
	rinsing.
	- Call a poison control center or doctor for treatment advice.
Have the product con	ntainer or label with you when calling a poison control center or doctor, or going
for treatment. For in	formation on this pesticide product (including general health concerns or
pesticide incidents),	call the National Pesticide Information Center at 1-800-858-7378, Monday
through Friday 8.00	AM to 12:00 PM Pacific Standard Time. In the event of a medical emergency, call

through Friday, 8:00 AM to 12:00 PM Pacific Standard Time. In the event of a medical emergency, call your poison control center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and was contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

Reducing agent. Do not allow this product to come in to contact with acids or oxidizing agents other than described in the directions for use. Add this product to water only.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Always add Yellow Treat[®] 2 directly to pool or spa.

TO CONTROL BLOOMS OF YELLOW AND MUSTARD ALGAE IN SWIMMING POOLS AND SPAS TREATED WITH *CHLORINATING* OR *BROMINATING* PRODUCTS

Step 1: For swimming pools, add 5 ounces (one complete level capful) of Yellow Treat[®] 2 per 10,000 gallons of water. Broadcast Yellow Treat[®] 2 directly onto pool water surface.

For spas, use the equivalent amount of ¹/₄ ounce of Yellow Treat[®] 2 per 500 gallons. Broadcast Yellow Treat[®] 2 directly onto spa water surface.

- **Step 2:** Brush pool or spa.
- **Step 3:** Independent of chlorine level, immediately add liquid or dry chlorinating product for superchlorination. Use the recommended dosage rate for super-chlorination from the label of an EPA-registered chlorinating product.
- **Step 4:** Before swimming, use a test kit for measuring the chlorine level, as directed on your chlorinating product label. Do not enter water or swim until the chlorine residual drops to 3 ppm.
- Step 5: Chlorinate continuously with tablets or a chemical feeder. Add slow dissolving tablets (such as trichloro-s-triazinetrione) during summer and heavy swimming conditions. Test chorine with OTO (yellow chlorine test) and let stand for 5 minutes before reading as directed on your chlorinating product.
- Step 6: To prevent reoccurrence of yellow and mustard algae and to maintain crystal clear water, No Mor Problems[®] may be used in conjunction with chlorinating and brominating products. Follow the Directions for Use for No Mor Problems[®]. Maintain the chlorine or bromine level recommended on the chlorinating or brominating product label.
- **Step 7:** Repeat above steps if algae are visible in pool or spa.

STORAGE AND DISPOSAL

(Residential)

Pesticide Storage: Store in a dry, well ventilated area out of the reach of children away from oxidizers. Keep container closed when not in use.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

(Commercial)

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a dry, well ventilated area out of the reach of children and away from oxidizers. Keep container closed when not in use.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse or equivalent. Offer for recycling or puncture and dispose of in a sanitary landfill.
