Subject: Label Amendment – Label mitigation required by the 2021 Inorganic Halides
Interim Registration Review Decision
Product Name: Yellow Treat 2
EPA Registration Number: 45337-16
Received Date: 11/24/2021
Decision Number: 580348

Dear Nancy Huddy:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Inorganic Halides Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Erin Dandridge by phone at 202-566-0635, or via email at dandridge.erin@epa.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kimberly Whitesell".

IF IN EYES	<ul style="list-style-type: none">- Hold eye open and rinse slowly and gently with water for 15-20 minutes.- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.- Call a poison control center or doctor for treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product (including general health concerns or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378, Monday through Friday, 8:00 AM to 12:00 PM Pacific Standard Time. In the event of a medical emergency, call your poison control center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS

Reducing agent. Do not allow this product to come in contact with acids or oxidizing agents other than described in the directions for use. Add this product to water only.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Always add Yellow Treat[®] 2 directly to pool.

TO KILL YELLOW AND MUSTARD ALGAE IN SWIMMING POOLS TREATED WITH CHLORINE

- Step 1:** For swimming pools, add 5 ounces (one complete level capful) of Yellow Treat[®] 2 per 10,000 gallons of water by broadcasting directly onto pool water surface.
- Step 2:** With pump running, brush pool.
- Step 3:** Independent of chlorine level, immediately add liquid or dry chlorinating product for super-chlorination. Use the recommended dosage rate for super-chlorination from an EPA-registered chlorinating product.
- Step 4:** If algae is still present after 24 hours, repeat the above steps.
- Step 5:** Before swimming, use test kit for measuring chlorine level, as directed on your chlorinating product label. Do not enter water or swim until the chlorine residual drops to 3 ppm.
- Step 6:** Resume your regular chlorine maintenance as directed on your chlorinating product.
- Step 7:** To prevent yellow and mustard algae, use No Mor Problems[®]. Follow the directions for use of No Mor Problems[®] and maintain the chlorine level as directed on your chlorinating product.

This product is not for use in outdoor pools. Outdoor hot tubs and spas must be covered when not in use.

Discharge Directions for Commercial and Residential Pool, Spa, and Hot Tub Uses:

Before draining a treated pool, contact your local sanitary sewer and storm drain authorities and follow their discharge instructions. Do not discharge treated pool water to any location that flows to a gutter, storm drain or natural water body unless discharge is allowed by state and local authorities.

STORAGE AND DISPOSAL

(Residential)

Pesticide Storage: Store in a dry, well ventilated area out of the reach of children away from oxidizers. Keep container closed when not in use.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

(Commercial)

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a dry, well ventilated area out of the reach of children and away from oxidizers. Keep container closed when not in use.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse or equivalent. Offer for recycling or puncture and dispose of in a sanitary landfill.

100% GUARENTEED

If this product didn't solve your problem, we'll fix it for free or your money back.
