 Under the Federal Insecticide,
 Fungicide, and Rodenticide Act,
 this pesticide is for the pesticide
 registered under
 EPA Reg. No.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, keep out of lakes, streams or ponds. Treated effluent cannot be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals will release hazardous gases irritating to eyes, lungs and mucous membranes.

DATE PACKAGED:

NOT FOR USE AFTER:

CHLORINATING SOLUTION

ACTIVE INGREDIENT: SODIUM HYPOCHLORITE... 9%
 INERT INGREDIENTS: ... 91%

**KEEP OUT OF REACH OF CHILDREN
 DANGER**

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do not give vinegar or other acids. Do not induce vomiting. Get prompt medical attention.

DIRECTIONS FOR GENERAL CLASS

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR SWIMMING

For a new pool or for spring start-up, add one half pint (16 flu. ozs.) of sodium hypochlorite solution to 6000 gallons of water. This dosage is equivalent to 0.6 ppm available chlorine by weight.

FOR POOL MAINTENANCE:

- A) Adjust pool water pH to 7.6 - 7.8
- B) Add manually or by a feeder device sodium hypochlorite solution at a rate to maintain an available chlorine of 0.6 to 1.0 ppm. One half pint (8 flu. ozs.) of sodium hypochlorite solution for each 6000 gallons of water. Adjust dosage for available chlorine by weight. Maintain 0.6 to 1.0 ppm available chlorine by weight. Adjust temperature and of number swimmers. Test water to determine the pH and chlorine residual.

NOTE: This product degrades with age. Increase dosage as necessary, to maintain 0.6 to 1.0 ppm available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry place, away from direct sunlight. In case of spill, flood or leakage, do not wash into water. Rinse empty container thoroughly with water. Return to manufacturer or discard by burying in an approved land fill. Product used, should be diluted with water and poured into a sewer. Do not contaminate food or clothing. Clean up and cleaning of equipment.

**DIRECTIONS FOR USE
 GENERAL CLASSIFICATION**

It is a violation of federal law to use this product in a manner
 inconsistent with its labeling.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool or for spring start-up, superchlorinate with one (1)
 pint (16 flu. ozs.) of sodium hypochlorite solution for each 2500
 gallons of water. This dosage is equivalent to 5 ppm available
 chlorine by weight.

FOR POOL MAINTENANCE:

- A) Adjust pool water pH to 7.6 - 7.2 range and maintain.
- B) Add manually or by a feeder device, sodium hypochlorite
 solution at a rate to maintain an available chlorine residual of
 0.6 to 1.0 ppm. One half pint (8 flu. ozs.) of sodium hypochlorite
 solution for each 6000 gallons of water will provide 1.0 ppm
 available chlorine by weight. Frequency of additions to
 maintain 0.6 to 1.0 ppm available chlorine will depend on
 temperature and of number swimmers. Use test kit to make
 certain the pH and chlorine residual are in the proper range.

NOTE: This product degrades with age. Use a chlorine test kit and
 increase dosage as necessary, to obtain the required level of
 available chlorine.

STORAGE AND DISPOSAL: Store in a cool, dry area away from
 direct sunlight. In case of spill, flood area with large quantities of
 water. Rinse empty container thoroughly with water and either
 return to manufacturer or discard by placing in trash collection or
 burying in an approved land fill. Product or rinsate that cannot be
 used, should be diluted with water and disposed of in a sanitary
 sewer. Do not contaminate food or feed by storage, disposal or
 cleaning of equipment.
