

DIRECTION FOR USE

It is a violation of the Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container in a locked storage area.

PESTICIDE DISPOSAL: For Containers Over 1 Gallon: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: For Containers 1 Gallon and Under: Do not reuse empty container. Wrap container and put in trash.

For Container Over 1 Gallon: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and Local authorities.

Direction for use continued on back panel

FOGGING INSECTICIDE

A SYNTHETIC PYRETHROID FOR KILLING THE FOLLOWING

SMALL FLYING INSECTS AND CRAWLING INSECTS:

Houseflies, mosquitoes, gnats, fruit flies, flying moths (Millers), wasps, hornets, yellow jackets, cockroaches, waterbugs, ants, crickets, silverfish, earwigs, spiders, grain mites, sowbugs, centipedes and millipedes.

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a Physician or Poison Control Center immediately. Gastric Lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING. Vomiting may cause aspiration if indicated.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is underway. After space spraying in meat packaging plants, bakeries and other food processing plants, wash all equipment, benches, shelving, etc., where exposed food will be handled, with potable water. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use.

Remove pets, birds and cover fish aquariums before spraying.

For use outdoors in yards, patios, picnic areas, camp sites, driveways, around swimming pools, poultry houses. For use indoors and outside premises of hotels, motels, homes, commercial, industrial, office, institutional and storage buildings, warehouses, restaurants, boarding plants, canneries, flour and feed mills, bakeries, laundries, ship cabins, and hospitals. IN HOSPITAL, PATIENTS SHOULD BE REMOVED PRIOR TO TREATMENT. Also for use in buses, automobiles, trucks, bargains, ship cargo holds, and in dog kennels and horse stables. IN HORSE STABLES, AVOID FOR APPLICATION IF HORSES WILL BE USED FOR FOOD.

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using the product in these areas apply only when the facility is not in operation.

Before application, remove plates and animals from areas to be treated. Cover or remove fish aquariums. Remove horses before spraying stables.

INDOORS

Thermal Applications: For use enclosed in electric, propane, or gas-powered thermal foggers and such portable thermal applicator equipment that can deliver spray particle sizes within the aerosol size range.

To kill houseflies, mosquitoes, gnats, fruit flies, flying moths (millers) Remove or cover exposed food and food handling surfaces. Remove animals, fish and plants. Shut off ventilating systems, air ducts, air conditioning equipment and close off room or area to be treated. Do not apply where food processing plant is occupied or in operation. Exit through all flames and pilot lights. APPLY AS A DRY FOG AT THE RATE OF 1-1/3 fluid ounces per 1,000 cubic feet of space. Direct nozzle of thermal applicator toward the upper corners of the room and along the ceiling. Close off room for at least one-half hour. Do not remain in treated areas. Ventilate the area after treatment.

Space Spray: To kill houseflies, mosquitoes, gnats, fruit flies, flying moths (millers): Close off room or area to be treated. Shut off air conditioner and ventilator system. Seal all open vents. Remove animals and plants. Cover or remove fish aquariums. Apply undiluted as a very fine mist space spray through manually operated equipment or with electric or other powered applicator. Stand by holding the spray nozzle at least five feet from objects. Direct spray first toward the upper corners of the room or area. Fill the area with a fine mist space spray at the rate of 5 fluid ounces per 5,000 cubic feet. Leave room closed for one half hour. Ventilate thoroughly before entry. Sweep up and destroy insects.

Contact Spray: To kill cockroaches, wasps, bees, crickets, silverfish, earwigs, spiders, grass mites, sowbugs, centipedes and millipedes. Spray to produce large misting-type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets and other harborage. Spray these infested areas until thoroughly wet. Repeat as necessary.

To kill Ants - Spray around doors and window frames and trim and sills in addition to direct spray to contact insects.

To kill Spiders - Spray directly on these pests and use repeated applications to the webbing and in cracks and crevices which harbor spiders.

OUTDOORS

THERMAL APPLICATIONS: This formulation is to be used enclosed in only such portable thermal applicator equipment that can deliver spray particle sizes within the aerosol size range.

For reduction in annoyance from bees, mosquitoes and gnats in yards, patios, around swimming pools, picnic areas, camp sites, driveways, and horse stables.

Thermal applicator at least five feet from any objects, especially plants and shrubbery. Avoid wetting any plant foliage. Apply undiluted at the rate of 3 1/2 gallons per acre. Fog only when there is no breeze, or the wind velocity is less than 3 miles per hour. The ideal time is generally at dusk when the sun has set and the air temperature and ground temperature are approximately the same. Under these conditions the fog will linger in the treated area for a longer time. Apply fog while moving away from treated area. Avoid inhalation of the fog. Do not enter the treated area until the fog has dissipated. Repeat application as necessary.

CONTACT SPRAY: To kill nuisance bees around buildings, patios and paved areas: Spray directly on insects. Avoid spraying turf or plants.

Ants: Same as directed for indoor application.

Wasps, Hornets, Yellow Jackets: Application should be made in late evening when insects are at rest. Space spray opening away from face. Aim spray at nest opening in bushes, under eaves, chimneys, cracks and crevices. Thoroughly saturate nest with spray contacting as many insects as possible. Spray thoroughly into nesting and breeding places.

Earwigs, sowbugs, spiders, centipedes and millipedes: Apply as a contact spray, as for indoor use.

To control bees, mosquitoes and gnats and crawling insects around premises, spray thoroughly around doors, window frames and similar areas of entry. Also thoroughly spray garbage and refuse areas, especially around poultry houses, barns, and similar areas of heavy infestation. Do not spray on turf or plants.

ACTIVE INGREDIENTS:

* Resmethrin.....0.200%

Related Compounds.....0.027%

** INERT INGREDIENTS.....99.773%

* Cis/trans isomers ratio: max. 30% (+) cis and min. 70% (+) trans.
U.S. Patent No. 3,465,007

** contains 99.500% Petroleum Distillate

KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed.

See side panel for additional precautionary statements

EPA Est. No.: 45385-IL-01

EPA Reg. No.: 45385-27

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL HAZARDS

More near heat or open flame
