

APR 17 1991

Ms. Barbara E. Kairies
CHEM-TOX, INCORPORATED
481 Scotland Road
McHenry, Ill 60050

Dear Ms. Kairies:

Subject: RESMETHRIN Registration Standard Label Revision
CHEM-TOX FOGGING INSECTICIDE
EPA Registration Number 45385-27
Submission dated April 2, 1991
CENOL MILL SPRAY with SBP-1382
EPA Registration Number 45385-78
Submission dated April 4, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

For both Registrations:

1. Revise the total inert ingredient percentage declaration on the label to include the "Related Compounds" percentage. Do not list "Related Compounds" separately as an active ingredient.
2. Delete the reference to electric thermal foggers, and add the following statement to the "PHYSICAL HAZARDS" section:

"Do not use this product in or on electrical equipment due to the possibility of shock hazard."
3. Remove "picnic areas, campsites, and drive-ins" from the OUTDOORS use statement. If these ~~two~~ designations are not removed from the label, the product must be labeled RESTRICTED USE as indicated in the RESMETHRIN Standard.

4. If the uses cited in Number 3 are deleted, add the heading "ENVIRONMENTAL HAZARDS" above the statement "This product is highly toxic to fish..". Revise the ENVIRONMENTAL HAZARDS statement to read:

"This product is highly toxic to fish. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters."

Sincerely,

RFM
Richard F. Mountfort
Product Manager 10
Insecticide-Rodenticide Branch
Registration Division (H7505C)

DIRECTION FOR USE
 It is a violation of the Federal Law to use this product in a manner inconsistent with the labeling.

STORAGE AND DISPOSAL
 Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in original container in a locked storage area.
DISPOSAL: PESTICIDE CONTAINERS: Do not reuse. Do not allow empty containers from the use of this product to be disposed of in water. Use an approved waste disposal facility.
 Do not use, store, or dispose of this product in any way that may contaminate water, food, or feed.

**PRECAUTIONARY STATEMENTS
 HAZARD TO HUMANS
 AND DOMESTIC ANIMALS
 CAUTION**

Harmful if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists.

**STATEMENT OF
 PRACTICAL TREATMENT**

Call a Physician or Poison Control Center immediately. Gastric Lavage is indicated if material was eaten internally. DO NOT INDUCE VOMITING. Vomiting may cause aspiration if indicated.

Do not apply directly to feed. In commercial feeding facilities, cover or remove any feed and feeding equipment during application. After space spraying, wash all equipment, troughs, buckets, and other feeding devices with hot soapy water. Washed feed will be soiled, but is safe to eat. Washed feed should be discarded. Washable equipment followed by potable water. Do not use feed processing surfaces and utensils that are not thoroughly washed.

This product is highly toxic to fish. Do not allow runoff from treated sites into adjacent waters. Consult your State Fish and Wildlife Agency before treating such waters.

PHYSICAL HAZARDS

Do not use or store near heat or open flame.
