Ms. Jacqueline L. Sherman General Manager CTX, Inc. 481 Scotland Road McHenry, IL 60050

Dear Ms. Sherman:

Subject: Deletion of Unsupported Malathion Uses Chem-Tox Mal 50 OS EPA Reg. No. 45385-66 Labeling Submitted August 10, 1992 and Corrected Applications of June 6, 1993 and September 14, 1994

The amended labeling submitted August 10, 1992 and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, As Amended (FIFRA), is acceptable, provided that you:

Federal Register Notice of November 30, 1994

Submit one copy of your final printed label incorporating the following corrections before you release the product for shipment.

1. In the directions for use outside of farm buildings and dairy barns, delete the reference to walls, ceilings and stanchions. It implies use of the product inside of these structures, a use which is not being supported for malathion.

2. Under the precautionary statements, make the following corrections.

a. Delete the statements, "Remove pets and cover fish bowls before spraying." This statement implies use of the product inside domestic dwellings, a use which is not being supported for malathion.

b. Delete the statement, "When applying this product wear a mask or respirator of a type recommended by U.S. Bureau of Mines to give adequate protection against this material." Based on the information in our files regarding the toxicity profile of malathion, this protective equipment is not necessary for the subject product and does not appear on the label previously accepted for the product.

c. Delete the statement, "Do not allow contact with treated surface until sprays have dried." Under the 1988 malathion registration standard, this restriction was a labeling

BEST AVAILABLE COPY

Recycled/Recyclable - Printed with Vegetable Of Based inks on 100% Recycled Paper (40% Postconsumer

requirement for indoor use, a use which has been deleted from the product labeling.

3. Under "Environmental Hazards", make the following corrections.

a. Correct the first two Environmental Hazards statements ("This product is toxic to _____" and "Do not apply directly to ____".) to read as stated below.

"This product is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. For terrrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

b. Delete the out-of-place wording, "surface until sprays have dried."

4. Add the following aquatic use restrictions to the directions for mosquito larvacide use. These restrictions are being required in lieu of conducting residue chemistry studies under 171-4 (Magnitude of the Residue in Fish and Shellfish and Magnitude of the Residue in Drinking and Irrigation Water).

"Broadcast use only over intermittently flooded areas. Application may not be made around bodies of water where fish or shellfish are grown and/or harvested commercially."

If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended label constitutes acceptance of this condition.

A stamped copy of the label is enclosed for your records.

Submit your updated current Confidential Statement of Formula (CSF), EPA Form 8570-4) for our files showing your current source of the malathion used to formulate the subject product. The most recent CSF in our files which is dated February 2, 1987 lists a product which has since been canceled.

The draft labeling received with your corrected application of September 14, 1994 is noted. However, since this labeling still bears the unsupported uses you are deleting, it cannot be accepted.

Sincerely,

mann / L

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing spray mist. Do not get in eyes, skin or clothing. Wash thoroughly after handling. Avoid contamination of feed and foodstuff. D: not use on household pets or humans. Remove pets and cover fish bowls before

Avoid contamination of feed and foodstuff. Do not use on household pets or humans. Remove pets and cover fish bowls before spraying. Do not smoke while spraying. General: When applying this product wear mask or respirator of a type recommended by U.S. Bureau of Mines to give adequate protection against this material. Wear protective clothing to minimize skin exposure. Do not allow contact with treated surface until sprays have dried. STATEMENT OF PRACTICAL TREATMENT: If swallowed- call physician or poison control center immediately. Do not induce vomiting because of possible aspiration hazar. Do not induce vomiting or give anything by moth to an unconscious person. If inhaled-remove victim to fresh air. Apply artificial respiration if indicated. If on skin - remove contaminated clothing and wash affected areas with soap and water. If in eyes - flush eyes with plenty of water. Call a physician immediately. Note to Physician: Malattion unconstruction from induces the plenty of water. Call a physician immediately. Malathion, upon repeated, prolonged, careless and may cause cholinesterase inhibition. Atropine is antidotal.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, birds, and other wildlife. Do not apply directly to water or wetlands (i.e. swamps, bogs, marshes, and portcles). Drift and runoff maybe hazardous to aquatic organisms in area near the application site. Do not contaminate water when disposing of equipment wash waters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment areas, surface until spray: have dried.

PHYSICAL & CHEMICAL HAZARDS: Do not your, use spill or store near heat or open flame.

DIRECTION FOR USE

It is a violation of the Federal Law to use this product in a manner inconsistent with its labeling.

It is a violation of the rederat Law to use this product in a manner monistrem with its tabening. STORAGE & DISPOSAL: Avoid storage conditions that might alter the composition or usefulness of the pesticide, e.g. temperature extremes, excessive moisture or humidity, heat, sunlight, friction or contaminating substances or media. Keep pesticide container closed in a cool, dry, and beked cabinet or room. PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide Wastes are toxic. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Metal Containers - Triple rinse (or equivalent). The offer for recycling disposed of a storage of a storic limit in landfill or the other promodures formed use storage and local authorities or reconditioning, or puncture and dispose of 12 2 sanitary landfill, or by other procedures approved by state and local authorities. Plastic Containers - Triple rinse (or equivalent) Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FOR FLY CONTROL OUTSIDE FAP:4 BUILDINGS AND DAIRY BARNS: Apply the spray at the rate of one gal, per 1000 sq.ft. on painted surfaces and two gallors per 1001 squift on unpainted surfaces where flies alight or congregate; walls ceilings, stanchions, window sills, fences, etc. Use a arge droplet spray that wets all surfaces to the point of run off. Repeat as necessary

MOSQUITO CONTROL: Airplane Application - Apply 3% to 5% Malathion in fuel oil at the rate of 1/2 lb. actual Malathion per acre. Use 2 1/2 gal. of 3% Malethion per acre or use 1 1/2 gal. of 5% Malathion per acre. MIST SPRAYING AND LARVACIDING: Apply a 3% to 5% Malathion in fuel oil at the rate of 1/2 lb actual Malathion per acre. Use 2 1/2 gal. of 3% Malathion per acre or use 1 1/2 gal of 5% Malathion per acre. Repeat as necessary. THERMAL FOGGING: Apply at the rate of 0.075 lb. to 0.1 lb. of actual Malathion per acre. For 3% solution this will be at the approximate rate of 1 gallon per 3.5 acres

DILUTION DIRECTIONS FOR THERMAL FOGEING AND MIST SPRAYING OILS: For mosquito control work, use a 3% to 5% Malathion concentration in no. 2 fuel cil. For a 3% Malathion fogging or mist spraying cil use 1 part of MAL 50-OS to 22 parts fuel oil. To make a 5% Malathion fogging or mist spraying oil add 1 part of MAL 50-OS to 13 parts of fuel cil. Fogging compounds and mist spraying compounds of up to 5% concentration of Malathion can be made in no. 2 fuel cil without using co-solvents. NOTICE: When ciluting MAL 50-OS with mineral seal cil, deodorized aliphatic or kerosene type petroleum

oils use one part aromatic type solvent to four parts kerosene type oils. FOGGING INSTRUCTIONS: For maximum strectiveness general outdoor fogging should be carried out under surface inversion conditions which usually exist only from one hour after sunset, through the night, and until sunrise. During this time, providing the wind velocity is under 3-4 miles per hour, the fog will remain in the area and close to the ground the required time to be fully effective. Durdoor fogging, in windy (over 4 mph) weather will be ineffective as the tiny fog particles will be to widely dispersive. will be too widely dispersed by the wind. Repeat as necessary.

Terms of Sale or Use on Purchase of use of this product:

WARRANTY: Manufacturer and Seller warrants that this product, as of the time of sale, conforms to the ingredient state orgin on the label, and is reasonably fit for the purpose set forth in the Directions for Use. Except as so warranted the product is sold as is. Manufacturer makes no other warranty express of implied. EXCUSE FROM NON-CONTROLLABLE CONDITIONS! Because of certain critical conditions created or incurred by buyer or user or over which manufacturer has no control, buyer and user as a condition of purchase or use, assume responsibility for and release manufacturer from, liability arising out of handling or use of the product attributable to such causes. No person is authorized to vary or waive any statement contained herein.
