### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in manner inconsistent with its labeling. Dilutions of this concentrate should be made shortly before use in the quantity needed for the individual application. Water solutions should not be kept for future use.

### TO CONTROL INSECTS ON ANIMALS

**DO NOT USE ON DOGS OR CATS UNDER 12 WEEKS OF AGE. CONSULT A VETERINARIAN BEFORE USING THIS PRODUCT ON DEBILITATED, AGED, PREGNANT, NURSING, OR MEDICATED ANIMALS.**

**Sponge Bath or Dip:** Dilute this concentrate at a rate of 1 fluid ounce in 23 fluid ounces of temperate water equal to (2 table-spoons of concentrate in 2 7/8 cups of water) equal to 5 1/2 fluid ounces (11 tablespoons) in 1 gallon of water.

**For rapid control of ticks, fleas and lice** on cats and Dogs, Sponge solution on thoroughly, wetting the skin over entire animal or Dip the animal being careful to avoid contact with the face. Do not rinse; allow solution to remain on animals. In cases of heavy tick infestations on long haired cats or dogs, dilute 1 fluid ounce of concentrate to 11 fluid ounces with water, equal to (2 tablespoons) of concentrate in 1-1/2 cup water) or 12 fluid ounces (24 table-spoons) of concentrate in one gallon of water. Repeat treatment every week, or as necessary.

**Mist Spray:** Dilute this concentrate at the rate of 7 fluid ounces in 1 gallon of water or equal to 1 fluid ounce of concentrate in 18 fluid ounces of water.

For rapid control of ticks, fleas and lice using a Mist Spray. To insure thorough coverage, part the fur by stroking against the lay of the hair as spray is applied. Spray ticks directly. Apply to moisten the fur lightly. To control spinose ear ticks and ear mites, syringe the ears with a few drops of this dilution so that it can penetrate the wax down to the surrounding tissues. Repeat treatment once or twice at 2 to 3 day intervals as necessary. For temporary protection from mosquitoes, eye gnats, biting flies and chiggers apply to cover the surface of the hair. Repeat treatment as necessary when insects are troublesome.

Ticks are only an occasional pest of cats. This product will control ticks on cats should they occur.

**To Control Insects in Kennels and Animal Quarters:** Dilute at the rate of 13 fluid ounces in 1 gallon of water or 2 fluid ounces in 20 fluid ounces of water. Remove pets before treating area and ventilate thoroughly before allowing them to re-enter treated area.

For rapid clean out of fleas and ticks in kennels apply this dilution in a good machine adjusted to deliver coarse droplets. Apply to the point of runoff with special attention to cracks and crevices and other insect hiding places. Bedding should be removed, sprayed thoroughly, and replaced with fresh bedding.

To control house flies, mosquitos and gnats in kennels apply this dilution in a good sprayer adjusted to deliver a fine mist. Use at the rate of approximately 1 ounce for 1,000 cubic feet of space. Fill the enclosed area with a mist wherever practical. Keep doors and windows closed for 10 minutes or more after application. Do not remain in treated areas and ventilate after treatment is completed. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur bathe pet with mild soap and rinse with large amounts of water. If signs continue, consult a Veterinarian immediately.

### NOTICE

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
