ATTACHMENT TO EPA REGISTRATION NOTICE

EPA Registration No. 45387-13 Date Issued 08 SEP 1980

Company Name Scientific Water Systems

Product Name CLOR MOR GRANULA 90

The following requirements or revisions apply to the label which was accepted with this registration notice:

1. The registration number which has been assigned to this product must appear on the label as EPA Reg. No. 45387-13. This registration is being issued with the understanding that the derivative of cyanuric acid which is contained in this product is under scrutiny for potential adverse effects to human. There may be some regulatory actions directed against all registered products containing this chemical as an active ingredient at some time in the future.
2. The labels which will be used for this product in channels of trade must reflect these revisions.
3. Two copies of the finished printed labels, as defined in the A-79 enclosure, must be submitted to the Agency before the product is released for shipment to comply with PR Notice 82-2 of June 18, 1982.
4. The finished printed labels must comply with the general labeling requirements of Section 162.10 of Title 40 of the Code of Federal Regulations. If the label does not satisfy these requirements it will be rejected.

CLOR MOR

GRANULAR 90

Algae Treatment

ACCEPTED
with COMMENTS
in EPA Letter Dated

SEP 08 1966

**KEEP OUT OF REACH OF CHILDREN
DANGER**

See first aid and other precautions on back panel.

Active ingredient: Trichloro-s-triazinetrione 99%
Inert 1%
Available Chlorine 89%

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
45387-13

GENERAL INFORMATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CLOR MOR Granular 90 is for use against algae attached to pool bottom and/or horizontal surfaces. For floating algae or those adhered to side wall a liquid Algaecide should be used.

DIRECTIONS FOR USE

- Using a suitable test kit, check total alkalinity and pH of pool water. Total alkalinity should be at least 80 ppm, and pH 7.2-7.6.
- Brush algae spots with a stiff bristle or wire algae brush.
- Turn off pump and filter and allow water to settle. Filter should be off for 2-4 hours during treatment.
- Broadcast CLOR MOR Granular 90 over affected areas. The dosage is 1 to 1½ ounces per 1,000 gallons pool water.
- After 2-4 hours, brush the affected areas again, and the algae should come loose. If any stubborn spots remain, repeat the treatment on those areas.
- After treatment is complete and all granules are dissolved, check the pH and chlorine readings. Pool water should be maintained at pH 7.2-7.6 and chlorine at 1.0-2.0 ppm. Give shock dose, at the above rates whenever algae first becomes visible.

Note: CLOR MOR Granular 90 is a strong oxidizing and bleaching agent! DO NOT USE IN PAINTED OR VINYL LINER POOLS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT—FIRST AID: If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Call physician immediately. If on the Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS STRONG OXIDIZING AGENT: Strong Oxidizing Agent: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberations of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL

STORAGE: Keep container tightly closed. Store in a dry place. Do not allow water to get into container. Keep container off wet floors. Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL: Wastes of this pesticide may cause irreversible eye damage and burns to skin and may be dangerous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty container of contents including clinging particles. Rinse empty container with water, and dispose of in a sanitary landfill or by incineration if allowed by State and local authorities.
