

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45387-19	DATE OF ISSUANCE 27 SEP 1988
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Clor Mor Shock	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Scientific Water Systems
 130 Avalon Road
 Lafayette, LA 70508

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

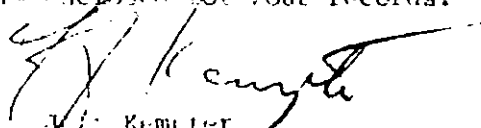

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(5)(A) provided that you:

1. Submit/continue all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
 2. Add the phrase "EPA Registration No. 45387-19" to your label before you release the product for shipment.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.
- If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A printed copy of the label is enclosed for your records.

NET WEIGHT: 1 lb. (453 gr.)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label. This product is a treatment that rids your pool of organic waste. Restores inviting spa-like water. A highly effective bactericide and disinfectant that complements daily chlorination.

APPLICATION PROCEDURE

A shock treatment should be made every week during hot weather or after heavy rain. Frequent shock treatments may be made during cool weather. Keep in mind that a slight rise in pH must be maintained in the event of heavy accumulations of dust and dirt caused by stockpiling or super-heavy bather loads. Prior to use, adjust pH of pool to 7.2-7.6. For shock treatment, add one pound per 10,000 gallons. Do not add directly into vinyl pools. Bleaching or staining may occur. For best results pre-dissolve this product in a plastic bucket of warm water, then pour around the perimeter of pool. For convenience calcium hypochlorite can be added through skimmer. Swimmers should not be permitted in the pool after the shock treatment until the free chlorine residual is below 3.0 ppm.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT - FIRST AID

If swallowed, feed bread soaked in milk, followed by olive oil or cooking oil. Call physician immediately. If on the Skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If in Eyes: Flush with cold water for at least 15 minutes. Get medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waterways in accordance with an NPDES Permit. For guidance, contact the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT

Strong Oxidizing Agent: Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a reaction leading to fire or explosion. Combination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, isolate container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

STORAGE AND DISPOSAL

Keep this product dry in a tightly closed container, when not in use. Store in a cool, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding container. Do not reuse empty container but place in trash collection. Do not contaminate or lead by storage or disposal, or cleaning of equipment.

This is a one application container which must be destroyed immediately after use.
