CONTROL-7
Concentrate

With Organic
Soil Tolerance

Disinfectant-Cleaner-Sanitizer-Fungicide-Mildewstat-Virucide*-Deodorizer
FOR HOSPITAL, INSTITUTIONAL, AND INDUSTRIAL USE

ACTIVE INGREDIENTS

Octyl Decyl Dimethyl Ammonium Chloride	1.14%
Dioctyl Dimethyl Ammonium Chloride	0.57%
Didecyl Dimethyl Ammonium Chloride	0.57%
Alkyl (C14, 50%; C12, 40%; C16, 10%)	
Dimethyl Benzyl Ammonium Chloride	1.52%

INERT INGREDIENTS

96.20%
<u>100.00%</u>

KEEP OUT OF REACH OF CHILDREN
DANGER

Statement of Practical Treatment

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

Directions for Use
GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CONTROL-7 is a complete "one-step" product for medical and non-medical environments where the need for a single product to disinfect, clean, and deodorize is vital to everyday housekeeping requirements. CONTROL-7's unique properties provide total confidence, even in the presence of moderate amounts of organic soil, in seven important ways: 1. It Disinfects 2. Cleans 3. Sanitizes 4. Deodorizes 5. Inhibits Mold and Mildew 6. Destroys Fungus and 7. is Virucidal.

Apply CONTROL-7 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTING - CLEANING - DEODORIZING

Medical Environments - To disinfect, clean, and deodorize hard, non-porous surfaces in hospitals and nursing homes, add 2 oz. (1/2 cup) per gallon of water. Surfaces must remain wet for 10 minutes. At this use-level, CONTROL-7 will not only disinfect but is also mildewstatic, virucidal, and controls pathogenic fungi. The performance of CONTROL-7 has been evaluated in the presence of 5% serum (organic soil) by the AOAC Use-Dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms as represented by:

- | | |
|------------------------|-----------------------------|
| Pseudomonas aeruginosa | Salmonella schottmuelleri |
| Escherichia coli | Salmonella choleraesuis |
| Enterobacter aerogenes | Klebsiella pneumoniae |
| Shigella dysenteriae | Streptococcus faecalis |
| Staphylococcus aureus | Brevibacterium ammoniagenes |
| Serratia marcescens | |

AOAC USE-DILUTION TEST
 LABORATORY
 1001 00 1034
 45910-2

Non-Medical Environments - For industry and non-medical institutions, schools, restaurants, health spas, restroom and other public areas, CONTROL-7 will disinfect hard non-porous surfaces at 1 oz. per gallon of water. Allow surfaces to remain wet for 10 minutes. At this use-level, CONTROL-7 delivers excellent cleaning, deodorizing, and broad spectrum germicidal action. It is effective against Staphylococcus aureus, Salmonella choleraesuis and Escherichia coli. The same AOAC tests used above to confirm suitable performance for hospitals were used.

SANITIZING -LIGHT CLEANING

To sanitize and clean porous or non-porous, non-food contact surfaces (such as floors, walls, tables, etc.), add 1/2 oz. per gallon of water. Treated surfaces must remain wet for 30 seconds. CONTROL-7 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on porous and non-porous environmental surfaces.

LEFT PANEL

CONTROL-7 has been formulated to aid in the reduction of cross-contamination in hospitals, schools, and institutions. In a single step CONTROL-7 provides cleaning, deodorizing, and effectively disinfects a broad spectrum of bacteria. It provides virucidal and fungicidal action as well as prevents the growth of mold and mildew and their odors when used as directed. CONTROL-7 is also an effective one-step sanitizer-cleaner for use on non-food contact surfaces.

In non-medical institutions and industrial applications CONTROL-7 requires only 1 oz. per gallon of water (1-128 dilution) to disinfect, clean, and deodorize. At 2 oz. per gallon of water (1-64 dilution) it provides disinfecting action against *Pseudomonas aeruginosa*.

In addition, CONTROL-7 will deodorize surfaces in areas prone to obnoxious odors caused by bacterial growth - toilet areas locker rooms, garbage cans and garbage storage areas, behind and under sinks and counters. CONTROL-7's concentrated deodorizing properties eliminate mal odors while leaving an air-freshened environment.

FUNGICIDAL ACTIVITY

CONTROL-7 at 1 oz. per gallon is an effective fungicide against *Trichophyton mentagrophytes* (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities etc.

MOLD AND MILDEW CONTROL

At 1 oz./gallon, CONTROL-7 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions on right panel). Allow to dry on surface and repeat when mildew growth returns.

VIRUCIDAL PERFORMANCE

* At 1 oz. per gallon use-level, CONTROL-7 was evaluated in the presence of 5% serum and found to be effective against Influenza A/Brazil Virus on inanimate environmental surfaces.

Precautionary Statements. Hazards to Humans and domestic animals

DANGER

Keep out of reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Harmful if swallowed. Do not breathe spray mist. Avoid contamination of food.

45414-3

STORAGE AND DISPOSAL

-DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL. 45414-3

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Attention: John G. Freshley II
President

Gentlemen:

Subject: Control-7
EPA Registration No. 45414-2
Your Submission dated April 23, 1984

The amendment referred to above, submitted in connection with registration under FIFRA, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

- a. Delete the word "Unique" (upper right panel).
- b. Revise the statement (Sanitizing - light cleaning section) right panel:

Treated surfaces must remain wet for 30 seconds

to read:

Treated surfaces must remain wet for 60 seconds.

- c. Revise the statement (upper right panel)

"...destroys fungus and..."

to read:

"...an effective fungicide and..."

2. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

- e. Revise the statement (Sanitizing-light cleaning section) right panel):

Treated surfaces must remain wet for 30 seconds.

to read:

Treated surfaces must remain wet for 60 ~~seconds~~ ^{seconds}.

Fei: Lonza Label you referenced.

- f. Revise the statement (upper right panel):

"...Destroys fungus and..."

to read:

"...an effective fungicide and..."

3. Verify your correct company address. According to our records, company number 45414 is located at 734 E. Southern Pacific Drive, Phoenix, AZ 85034. If P.O. Box 26447, Tempe, AZ 85202 is your new address, Submit an address correction to our office. For correspondence purposes, only one company address should be on file at IPA per company number.

4. The confirmatory data submitted is acceptable and has been assigned the Accession Number 249431.

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
