A collection of 20 small, stylized line drawings of various birds, including sparrows, finches, and songbirds, arranged in a grid-like pattern. The birds are depicted in various poses, some facing left, some right, and some in profile. The drawings are simple, using only outlines and minimal shading to represent feathers and beaks.

Statements on Side Panel

NET CONTENTS 1 QT.

EPA REG. NO. 45453-22 EPA EST. NO. 45453-OH-01

This product contains 2.67 lbs of active ingredient
per gallon and weighs 8.9 lbs per gallon.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going to hospital for treatment.

If in eyes	<ul style="list-style-type: none"> Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If Inhaled	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Environmental Hazards: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is used to control the growth of algae in swimming pools. For maximum effectiveness pools containing heavy growth of algae should be cleaned prior to using this product.

For pools having just visible algae growth add an initial dose of 24 to 36 fluid ounces of this product per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of freshly cleaned and filled pools add initially 13 to 24 fluid ounces of this product per 10,000 gallons of water. Subsequent additions of 4 to 8 fluid ounces of this product per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs and decorative fountains having just visible algae growth, require an initial dose of 2 to 4 fluid ounces of this product per 1,000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub or decorative fountain add 1 to 2 fluid ounces of this product per 1,000 gallons of water. Subsequent additions of 0.5 to 0.8 fluid ounces of this product should be made every 5 to 7 days after initial treatment for maintenance.

This product will prevent growth of most algae during the off season winter months when pools are not in use. For pools which have been properly treated during the swimming season and are free of visible algae, add 13 to 21 fluid ounces of algaecide per 10,000 gallons of water. If at the end of swimming season pools have some visible algae growth, add 26 to 37 fluid ounces per 10,000 gallons. It is necessary that a uniform distribution of algaecide throughout the water and the pool be made for maximum effectiveness. If pool is not covered, it may be necessary to repeat the treatment one or more times during the season.

This product is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. This product can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix this product with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food or feed by storage or disposal. Keep container closed when not in use. Mop up spills with clear water. All pesticides should be kept out of reach of children and stored away from food.

STORAGE: Keep product dry in a tightly closed container when not in use. Keep away from heat or open flame. Store in cool, dry, well-ventilated area. If Empty, Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP For disposal instructions. Never place unused product down any indoor or outdoor drain.
