US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45458-20003	DATE OF ISSUANCE SEP 24 1993
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT Liquid Chlorinator	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Baleco International, Inc. P.O. Box 11331 Cincinnati, OH 45211		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
<p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continuous reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p>		
<p>A stamped copy of the product label is enclosed for your records. Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.</p>		
<p>If this condition is not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of this condition.</p>

SWIMMING POOLS - While water is still clear & clean, apply 3 oz. of this product per 1,000 gallons, while filter is running, to obtain a 3 ppm available chlorine residual, as determined by a suitable test kit. Cover pool, prepare heater, filter and heater components for winter by following manufacturers' instructions.

DETERMINE POOL CAPACITY:
To establish Pool Capacity follow this simple procedure:
Square or Rectangular Pools: Multiply length x width x average depth x 7.5
Oval Pools: Multiply maximum length x maximum width x average depth x 5.9
Round Pools: Multiply diameter x diameter x depth x 5.9

DANGER
KEEP OUT OF REACH OF CHILDREN

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage as necessary to obtain the required level of available chlorine.

Enjoy your pool. A daily swim is refreshing and conducive to good health. For additional safety never swim alone, especially young swimmers.

KEEP THIS CONTAINER IN AN UPRIGHT POSITION.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER:

CORROSIVE: May cause severe skin irritation or chemical burns to broken skin. Causes eye damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until vapors have dissipated.

ENVIRONMENTAL HAZARD:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer system without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or National Office of the EPA.

PHYSICAL AND CHEMICAL HAZARD:
STRONG IRRITATING AGENT:

Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc. or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes.

SWIMMING POOL LIQUID CHLORINATOR

A FAST ACTING SANITIZER

PRACTICAL TREATMENT PROCEDURE:
If Backwash: Shut down system of water. Do not resume swimming. Call a plumber or plumber control center immediately.

If no filter: Switch off pump electrical and flush pipe with cold water for at least 15 minutes. If irritation persists get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

POOLING AND SHOWER:

Store this product in a cool, dry area, away from direct sunlight and heat to avoid decomposition. In case of spill, flush areas with large quantities of water. Prolonged contact with skin should be flushed with water before disposal in secondary container. Do not reuse container but place in trash collection. Do not contaminate food or feed by storage, disposal or cleaning of containers.

SWIMMING POOL TREATING INSTRUCTIONS

For a new pool or spring start-up, superchlorinate with 54 to 108 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity of the pool to between 90 to 100 ppm.

To maintain the pool, add 1 oz. of product for every 10,000 gal. of water to maintain a residual of 1.0 to 1.5 ppm available chlorine. Test the pH, available chlorine, alkalinity and hardness of the water frequently with appropriate test kits. Frequency of water treatments will depend upon temperature and usage of the pool.

Every 7 days, or as necessary, superchlorinate the pool with 54 to 108 oz. of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Do not reenter pool until the chlorine residual is between 1.0 to 3.0 ppm.

At the end of the swimming pool season or when water is to be drained from the pool, chlorine must be allowed to dissipate from treated pool water before discharge. Do not chlorinate the pool within 24 hours prior to discharge.
