

45458-20005

ACCEPTED
M/R 13 2003
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 45458-20005

Active ingredient:
Calcium Hypochlorite.....68%
Inert Ingredients.....32%
Total.....100%
Minimum Available Chlorine...65%

GRANULAR

Chlorinator For Swimming Pools

KEEP OUT OF REACH OF CHILDREN
DANGER!
Contamination or improper use may cause fire or explosion. Add only into water. See precautionary statements on back panel.

EPA REG. NO. 45458-20005 EPA EST. NO. 45458-OH-01

FIRST AID	
If inhaled	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	• Hold eyes open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. • Call a poison control center or doctor for treatment advice.
If swallowed	• Call poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.

NET WT. 5 LBS. (80 ozs.)

Directions For Use:
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

How to Use: 1. Add the recommended dosages of this product during evening hours while the filter pump is running. 2. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool.

Shock Treatment: 1. Adjust and maintain pH to 7.2-7.8 with pH Plus or pH Minus. Follow label instructions on that product. 2. Add 1 lb (16 oz.) of this product per 10,000 gallons of pool water. This will provide a dosage of 7.5 parts per million (ppm) free available chlorine. 3. Follow "How to Use" directions on this package. 4. **DO NOT** enter pool until the free available chlorine residual is 1-3 ppm.

Opening Your Pool: Maintain pH in THE 7.2-7.8 RANGE. 1. Follow "Shock Treatment" directions on this package. 2. Allow 30 minutes for product to disperse. 3. Test chlorine residual with a pool test kit. **DO NOT** enter pool until the free available chlorine residual is 1-3 ppm. 4. Repeat treatment as needed.

Routine Chlorination: Throughout the pool season, adjust pH to 7.2-7.8. **For Unstabilized Pools:** Add 6-8 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1-3 ppm. Follow "How To Use" directions on this package. **For Stabilized Pools:** Add 3 to 4 oz of this product per 10,000 gallons of pool water every other day or as often as needed to maintain the free available chlorine residual at 1-3 ppm. Follow "How To Use" directions on this package.

Preventative Treatment: Shock treat your pool weekly to prevent problems. An additional shock treatment may correct problems which are caused by: • High bathing loads • Heavy wind and rainstorm. Additional shock treatments will also remove: • Unpleasant odors • Eye irritation • Algae which has a green color and a slimy feeling.

Item #gc5

Manufactured By:
Baleco International Inc.
Cincinnati, OH 45211

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.
This product is a concentrated chlorinating agent. It is in a dry, free-flowing form. It controls algae, kills bacteria and destroys organic contaminants in pools.

Precautionary Statements:
Hazards to Human and Domestic Animals: DANGER, highly corrosive.
• Causes skin and eye damage. • May be fatal if swallowed. • **DO NOT** get in eyes, on skin, or on clothing.
• **DO NOT** handle with bare hands. • Wear goggles or face shield. • Use rubber gloves. • Use only utensils which are thoroughly clean and dry. • Irritating to nose and throat. • Avoid breathing dust and fumes.
• Remove and wash contaminated clothing before reuse.

Chemical Hazards: DANGER. • Strong oxidizing agent. • Add only into water. • Contamination may start a chemical reaction. This reaction can give off heat, hazardous gases, and may cause a fire or explosion. • **DO NOT** touch this chemical with a flame or burning material (like a lighted cigarette).
• Keep all of these away from this product: moisture, garbage, dirt, chemicals (including other pool chemicals), pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags, or any other foreign matter.

Environmental Hazard: This pesticide is toxic to fish and aquatic organisms. **DO NOT** discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public water unless in accordance with the requirements of a NPDES permit and the permitting authority has been notified in writing prior to discharge. **DO NOT** discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or regional office of the EPA.

Storage and Disposal:
Storage: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well ventilated area. Keep away from heat or open flame. **DO NOT** contaminate food or feed by storage, disposal, or cleaning of equipment.

Disposal: If empty: **DO NOT** reuse this container. Place in trash or offer for recycling if available.
If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

Disposal for a Contaminated or Decomposing Product: **DO NOT** reuse container if this product: • gives off heat • gives off hazardous gases • bubbles. Isolate it (if possible). Flood decomposing product with large amounts of water to completely dissolve this product. Throw away the container and any contaminated material in an approved landfill area.
