OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Robert Rosenwasser
Agent for Balico International, Inc
RR Consulting Services Inc
273 Althea Ave
Morrisville, PA 19067

Subject Granular
EPA Registration No 45458-20005
Application Dated October 3, 2012
Receipt Dated October 9, 2012

Dear Mr Rosenwasser

This acknowledges the receipt of your Amendment application dated October 3, 2012 in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with comments listed below

Submission and Proposed Changes

Label amendment to add two Alternative Brand Names (ABNs) "**Aquamate Shock**" and "**Maintain Pool Pro Shock**" and the revised master label for "**Granular**" product (EPA Reg#45458-20005) Proposed amended label dated October 2, 2012 (pin punch 10/04/12)

Comments and Conditions

Based on the submitted materials, the following comments apply

1 P 1- Addition of the following ABNs (alternative brand names) "**Aquamate Shock**" and "**Maintain Pool Pro Shock**" are acceptable for "**Granular**" product (EPA Reg#45458-20005)

2 P 5 - Delete "[Contains no cyanuric acid]", since this claim is unacceptable Such claims are considered safety claims and may be considered as false and misleading
{see 40CFR156 10(a)(5)(x)} Also, these claims may mislead consumers to think that the absent of ingredient is hazardous and that product with that ingredient is harmful and to be avoided
{See also Agency letter dated July 31, 2012 regarding the requested amendment for this product}

General Comments

A stamped copy of the label with comments is enclosed. Submit one copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

This amendment and a copy of this letter have been inserted in your file for future reference.

If you have any questions or comments concerning this letter, please contact liem.david@epa.gov or call (703) 305-1284.

Sincerely,

Monisha Harris
Product Manager - Team 32

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE

This product is a concentrated chlorinating agent It is in a dry, free-flowing form It controls algae, kills bacteria and destroys organic contaminants in pools

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER HIGHLY CORROSIVE Causes skin and eye damage May be fatal if swallowed Do not get in eyes, on skin or on clothing Do not handle with bare hands Wear goggles or face shield Use rubber gloves Use only utensils which are thoroughly clean and dry Irritating to nose and throat Avoid breathing dust and fumes Remove and wash contaminated clothing before reuse

CHEMICAL HAZARDS DANGER Strong oxidizing agent Add only into water Contamination may cause a chemical reaction This reaction can give off heat, hazardous gases, and may cause a fire or explosion Do not touch this chemical with a flame or burning material (like a lighted cigarette) Keep all these away from this product moisture, garbage, dirt, chemicals (including other pool chemicals), pool chlorinating compounds, household products, cyanuric acid pool stabilizers, soap products, paint products, solvents, acids, vinegar, oils, pine oil, dirty rags, or any other foreign matter

{Environmental hazard statement for end-use products in containers less than 5 gallon liquids}

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

[DETERMINE POOL CAPACITY

To establish Pool Capacity follow this simple procedure

Square or Rectangular Pools Multiply length (ft) X width (ft) X avg depth (ft) x 7.5

All text in brackets [XX] is optional and may or may not appear on a final label
All text in braces {XX} is administrative and will not appear on a final label

All text in brackets [XX] is optional and may or may not appear on a final label
All text in braces {XX} is administrative and will not appear on a final label

Oval Pools Multiply long diameter (ft) X short diameter (ft) x 5 9

Round Pools Multiply diameter (ft) X diameter (ft) x 5 9]

{The following directions are for use in recreational products One or more use patterns may appear on a single end use label}

{Directions for use}

HOW TO USE

[1] [●] Add the recommended dosages of this product during evening hours while the filter pump is running

[2] [●] When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool

{Directions to be used for shock treatment}

SHOCK TREATMENT

[1] [●] Adjust and maintain pH to 7 2-7 6 with pH Plus or pH Minus Follow label instructions on that product

[2] [●] Add 1 lb (16 oz) of this product per 10,000 gallons of pool water This will provide a dosage of 7 5 parts per million (ppm) free available chlorine

[3] [●] Follow "How to Use" directions on this package

[4] [●] Do not enter pool until the free available chlorine residual is 1- 3 ppm

{Directions to be used for opening your pool}

OPENING YOUR POOL Maintain pH in the 7 2-7 6 range

[1] [●] Follow "Shock Treatment" directions on this package

[2] [●] Allow 30 minutes for product to disperse

[3] [●] Test chlorine residual with a pool test kit Do not enter pool until the free available chlorine residual is 1- 3 ppm

[4] [●] Repeat treatment as needed

{Directions to be used for routine chlorination}

ROUTINE CHLORINATION Throughout the pool season, adjust the pH to 7 2 to 7 8

[1] [●] For Unstabilized Pools Add 6-8 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1- 3 ppm Follow the "How to Use" directions on this package

[2] [●] For Stabilized Pools Add 3-4 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1- 3 ppm Follow the "How to Use" directions on this package

{Directions to be used for preventative treatment}

PREVENTATIVE TREATMENT Shock treat your pool weekly to prevent problems

An additional shock treatment may correct problems which are caused by

[1] [●] High bathing loads

[2] [●] Heavy winds and rainstorms

Additional shock treatments will also remove

[1] [●] Unpleasant odors
