

DESCRIPTION

SAN-TIZE SANITIZER — An economical and stable bactericide designed for sanitizing operations. For use as a sanitizing or disinfecting rinse after cleaning.

DIRECTIONS APPLICATIONS

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABEL.

To sanitize and deodorize equipment in food, meat and poultry processing plants, first clean the surfaces to be sanitized and rinse with water. Then rinse or flush with a solution containing 1 ounce of **SAN-TIZE** in 4 gallons of water. A final potable water rinse is not required after sanitization.

For use as a third rinse tank in restaurants, cocktail lounges, soda fountains or drive ins, a solution of 1 ounce of **San Tize** in 4 gallons of water effectively sanitizes glassware, eating and drinking utensils.

Whenever higher concentrations than 1 ounce of **San-Tize** per 4 gallons of water are used on food contact equipment and utensils, a potable water rinse is required.

WHEN USED IN FEDERALLY INSPECTED MEAT AND POULTRY ESTABLISHMENTS, THE MAXIMUM ALLOWABLE CONCENTRATION FOR USE ON EQUIPMENT AND UTENSILS IS 200 PPM QUATERNARY AMMONIUM

CHLORIDE OR 1 OUNCE **SAN-TIZE** PER 4 GALLONS OF WATER
