Subject: Label Amendment: Removal of "clear" from the name.
Insecta
EPA Reg. No. 45600-1
Submissions dated May 22, 2002, **accepted with comments.**

Dear Mr. Quinlan:

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following comments:

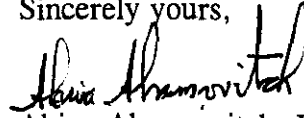

- 1) Replace the heading Food Must be Removed.....with **Indoor Industrial/Food Processing sites** and follow with the statement of "Do not use this application method in the food/feed handling areas of the facility when the facility is in operation or food are exposed. Do not apply directly to food/feed products and cover or remove all food processing and/or handling equipment during application. After application thoroughly rinse all surfaces and handling and processing equipment that may contact food/feed".
- 2) The Precautionary Statement must be revised as follows: "Harmful if swallowed, absorbed through the skin or **inhaled**". Avoid breathing vapor or spray mist. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing thoroughly before reuse".
- 3) "Ventilation must be provided during and for 4 hours after application for all indoor applications' must be moved from the precautionary statement to the Directions for Use.

The removal of "clear" from the name was accepted. A stamped copy of the label "accepted with comments" is enclosed for your records.

2 8 3

Please submit two (2) copies of the final printed label for our files prior to releasing the product for shipment. If you have any questions please call me at (703) 308-8328.

Sincerely yours,

Akiva Abramovitch, Ph.D.

In EPA Letter Dated 1/14/03
FLYING AND CRAWLING INSECTS

EXTERIOR FEB 5 2003

INTERIOR

Under the Federal Insecticide, Fungicide, and Rodenticide Act

INSECTA®

Outdoor registered under EPA # 45600-1
Non-Residential

For use on the inside of sewer manhole walls, on fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, wooden containers, poles, posts and also for the control of fire ants and spiders in and around electrical equipment only at industrial plant sites or other non-residential sites.

Active Ingredient:
Chlorpyrifos (O,O-Diethyl O-(3,5,6-trichloro-2-pyridinyl) phosphorothioate).....0.86%
Inert Ingredients:.....99.14%
Total 100.00%

Net Contents: 30 gallons
KEEP OUT OF REACH OF CHILDREN
CAUTION

See Side/Back Panel For Additional Precautionary Statements

Indoor Industrial/Food Processing Sites
(Non-Residential):

For use as a crack and crevice, spot treatment and localized treatment of non-food contact surfaces such as walls, ceilings, masonry and concrete, loading and unloading docks and garbage disposal areas of the following buildings: warehouses, ship holds, railroad box-cars, industrial plants, manufacturing plants, food processing plants, dairy barns, milking parlors, chicken houses and swine barns.

**Precautionary Statements
Hazards to Humans and Domestic Animals
CAUTION**

Harmful or fatal if swallowed or absorbed through skin. Avoid breathing vapors while product is wet. Provide ventilation of area during application and for at least four hours after any indoor application. Avoid contact with eyes, skin and clothing. In case of contact, immediately flush eyes and skin with plenty of water. Wash thoroughly with soap and water after handling.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection is the preferable antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not contaminate water by disposal of equipment wash water. Do not apply directly to water. Apply this product only as specified on this label.

ATTENTION: Dries quickly and rinses easily with water. Allow to dry for several days before washing. Wash brush, roller, applicator or spray equipment thoroughly with soap and water after use. As contact between the insect and the treated surface is necessary, any time that the latter becomes coated with dust or dirt, the treated surface should be washed with water in order to re-establish maximum possible contact. INSECTA applied on exposed glass, glazed tile, metal or other non-porous surfaces may dry leaving a light film.

KILLS BY CONTACT: Cockroaches, ants, spiders, flies, mosquitoes, millipedes, ticks, gnats, palmetto bugs, silverfish, earwigs, crickets, fire ants, scorpions and black widow spiders.

NOTICE

Seifer warrants that this product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. Neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.

EPA Reg. No. 45600-

Manufactured For: Insecta Marketing, Inc. 3601 NE 5th Avenue

Product of USA

Oakland Park, FL 33334-2214

"Insecta" is a Registered Trade Mark

Patent No. 5023247

PRODUCT CODE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Insure that all surfaces are clean and dry prior to applying this product. Each gallon covers approximately 500 square feet. This ready-to-use product should be stirred thoroughly prior to application. Wear chemical resistant gloves. Apply with brush, roller or handled pad applicator, or by coarse, low pressure spray. For best results, use without dilution. If necessary, dilute with up to 5% water.

TREATMENT OF SEWER MANHOLES: (For control of roaches.) Apply product on manhole walls. Product may be applied via coarse spray using conventional airless spray equipment or by applying with suitable brush or roller. Persons applying product in manholes must wear chemical resistant gloves, a respirator approved by NIOSH for organic chemical vapors, goggles and long-sleeved clothing. Apply no more than 48 ounces (3 pints) of product to each manhole. Do not discharge spray or unused material directly into sewer system. Do not apply product within 36 hours of predicted heavy rainfall.

CRACK AND CREVICE TREATMENT: Apply INSECTA as a coarse, low pressure (20 PSI or less) spray with equipment capable of delivering a pinstream of insecticide directly into openings leading to voids and hollow spaces in walls, equipment with legs and bases, or at points that occur between different elements of construction or especially where equipment joins the floors and walls. Use an applicator fitted with needle injector or equipment capable of delivering a pinstream of insecticide. Use equipment with plastic rather than rubber hoses because the solvents in the insecticide may cause collapse of the rubber. Prior to application, de-energize equipment and allow time for the solvent to evaporate before starting motors or placing on "ON" position. Do not apply insecta on or near flames or heated surfaces.

FOOD MUST BE REMOVED OR COVERED DURING TREATMENT: Do not use this application method in the food/feed handling areas of the facility when the facility is in operation or foods are exposed. Do not apply directly to food/feed products and cover or remove all food processing and/or handling equipment during application. After application thoroughly rinse all surfaces and handling and processing equipment that may contact food/feed.

SPOT TREATMENT: controls cockroaches, ants, crickets, silverfish and other insects in and around both food and non-food areas. Apply insecta with a 3 to 4 in. brush, roller or handled pad applicator to localized areas where these pests have been seen or are suspected of hiding or entering. Apply only enough to wet the surface. Avoid runoff. Do not allow the insecticide to contact food or food processing surfaces. Areas to be treated include around plumbing and other utility installations, dark corners and closets, along and on baseboards, moldings, around doors, windows, ventilators and other openings. Apply adjacent to tin paneling or other material loosely attached to walls. Floor drains, garbage rooms and locker rooms should be included in treatment. Treated surfaces should not be washed or cleaned for 36 hours after application.

FOR CONTROL OF FIRE ANTS, spiders, wasps and other insects nesting or harboring in electrical equipment including, but not limited to: electrical transformer boxes, telephone switch gear boxes, air conditioner cabinets, traffic signal and light standards, pump houses, underground equipment vaults, field radar and navigation equipment installations. Application of this product to the interior and exterior of such installation must be made when equipment is not in operation and surfaces must be dry before placing equipment back in service. do not apply to electrical connectors or components. Product may be applied by coarse, low pressure spray or suitable brush or applicator. Shop performed applications (before equipment is installed) may be made via coarse spray using conventional airless spray equipment. Persons applying product by high pressure spray must wear chemical resistant gloves, a respirator approved by NIOSH for organic chemical vapors, goggles and long sleeved clothing.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in original containers and do not allow to freeze

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent); then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
