Pat Quinlan
Director, Registration
Insecta Sales & Research, Inc.
3601 NE 5th Ave
Oakland Park, FL 33334-2214

Subject: Label amendment requested by the Agency on March 3, 2009
EPA Reg. No. 45600-1
Submissions dated April 9, 2009
Decision 847094

Dear Mr. Quinlan:

The labeling referred to above submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

A copy of the stamped "accepted" label is enclosed for your records.

Please submit two (2) copies of the final printed label before shipment. If you have any questions please call me at (703) 308-8328.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Akiva Abramovitch".

Akiva Abramovitch, Ph.D.

Chemist

Insecticide-Rodenticide Branch
Registration Division (7505P)

ACCEPTED

MAR 19 2009

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 45600-1

SHAKE WELL BEFORE USE
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.
Do not use this product on manhole covers in storm drain systems.

Application Restrictions

Do not enter or allow others to enter until sprays have dried.
Do not allow spray to drift from the application site and contact people, structures people occupy at any time and the associated property, parks and recreation areas, nontarget crops, aquatic and wetland areas, woodlands, pastures, rangelands, or animals. The applicator also must use all other measures to control drift. Insure that all surfaces are clean and dry prior to applying this product. Each gallon covers approximately 500 square feet. This ready-to-use product should be stirred thoroughly prior to application. Apply with brush, roller or handled pad applicator, or by course, low pressure spray. For best results, use without dilution. If necessary, dilute with up to 5% water.

CRACK AND CREVICE TREATMENT: Apply Insecta as a course, low pressure (20 PSI or less) spray with equipment capable of delivering a pinstream of insecticide directly into openings leading to voids and hollow spaces in walls, equipment legs and bases, or at points that occur between different elements of construction or especially where equipment joins floors and walls. Use an applicator fitted with needle injector or equipment capable of delivering a pinstream of insecticide. Use equipment with plastic rather than rubber hoses because the solvents in the insecticide may cause collapse of the rubber. Prior to application, de-energize equipment and allow time for solvent to evaporate before starting motors or placing on "ON" position. Do not apply Insecta on or near flames or heated surfaces.

FOOD MUST BE REMOVED OR COVERED DURING TREATMENT: SPOT TREATMENT controls German and American cockroaches as well as houseflies in and around both food and non-food areas. Apply Insecta with a 3 in to 4 in brush, roller or handled pad applicator to localized areas where these pests have been seen or are suspected of hiding or entering. Apply only enough to wet the surface. Avoid runoff. Do not allow the insecticide to contact food or food processing surfaces. Areas to be treated include around plumbing and other utility installations, dark corners and closets, along and on baseboards, moldings, around doors, windows, ventilators and other openings. Apply adjacent to tin paneling or other material loosely attached to walls. Floor drains, garbage rooms and locker rooms should be included in treatment. Treated surfaces should not be washed or cleaned for 36 hours after application.

Kills German Cockroaches for up to one year when exposed to treated painted surfaces.
Kills Houseflies alighting on treated painted surfaces for up to 18 months.

Outdoor Non-Residential:
For use on the inside of sewer manhole walls and covers, to control American and German cockroaches as well as on fence posts, utility poles, railroad ties, landscape timbers, logs, pallets, poles, and posts.

KILLS CRAWLING AND FLYING INSECTS

Active Ingredient:
Chlorpyrifos (O,O-Diethyl O-(3,5,6-trichloro-2 pyridinyl) phosphorothioate).....0.86%
Inert Ingredients:.....99.14%
Total 100.00%

Indoor Industrial/ Food Processing Sites (Non-Residential):
For use as a crack and crevice, spot treatment and localized treatment of non-food contact surfaces on walls, ceilings, masonry and concrete, loading and unloading docks and garbage disposal areas of the following buildings: warehouses, ship holds; railroad boxcars, industrial plants, manufacturing plants, food processing plants, dairy barns, milking parlors, chicken houses and swine barns.

Net Contents: 55 gallons
KEEP OUT OF REACH OF CHILDREN
CAUTION

See side panels for additional precautionary statements.

Precautionary Statements
Hazards to Humans and Domestic Animals
CAUTION

Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist.

Personal Protective Equipment (PPE)
All mixers, loaders, applicators and handlers must wear:
• coveralls over long-sleeved shirt and long pants;
• chemical-resistant gloves such as neoprene;
• chemical-resistant apron when mixing or loading or exposed to the concentrate;
• chemical-resistant footwear plus socks;
• chemical-resistant headgear for overhead exposures;
• a NIOSH-approved dust mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator any N, R, P, or HE filter. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

Environmental Hazards
This product is toxic to fish, aquatic invertebrates, small mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.
This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treated areas.

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.
If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection is the preferable antidote.
HOTLINE INFORMATION: Emergency Telephone Number: 1-800-255-3924

User Safety Recommendations
Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

EPA Reg. No. 45600-1
EPA Est. No. 68514-FL-001

TREATMENT OF SEWER MANHOLES: (For control of roaches). Apply product on manhole walls and covers. Product may be applied via coarse spray using conventional airless spray equipment or by applying with suitable brush or roller. Apply no more than 48 ounces (3 pints) of product to each manhole. Do not discharge spray or unused material directly into sewer system. Do not apply product within 36 hours of predicted heavy rainfall.

ATTENTION: Dries quickly and rinses easily with water. Allow to dry for several days before washing. As contact between the insect and the treated surface is necessary, any time that the latter becomes coated with dust or dirt, the treated surface should be washed with water in order to re-establish maximum possible contact. INSECTA applied on exposed glass, glazed tile, metal or other non-porous surfaces may dry leaving a light film.
KILLS BY CONTACT: American Cockroaches, German Cockroaches and Houseflies.

Storage and Disposal
Do not contaminate water, food or feed by storage and disposal.
Pesticide Storage: Store in original containers and do not allow to freeze.
Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.
Container Disposal: Triple rinse (or equivalent), then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE
Seller warrants that this product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. To the extent allowed by applicable laws, neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and to the extent allowed by applicable laws buyer assumes the risk of any such use.
