CHEMICAL SAFETY AND
POLLUTION PREVENTION

July 27, 2010

Pat Quinlan
Insecta Marketing, Inc.
3601 NE 5th Avenue
Oakland Park, FL 33334-2214

Dear Mr. Quinlan:

Subject: Amended labeling to revise PPE and limit application to sewer manhole walls
Product Name: Insecta®
EPA Reg. No. 45600-1
EPA Decision No. 428510
Your submission dated February 5, 2010; resubmission dated July 26, 2010

The proposed labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself. This information can be added by non-notification per PR Notice 98-10.

A stamped copy of the label is enclosed for your records. Please submit two copies of your final printed labeling before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact me at (703) 308-8045 or eagle.venus@epa.gov.

Regards,

Venus Eagle, Product Manager (01)
Insecticide-Rodenticide Branch
Registration Division (7505P)

Enclosure

INSECTA®

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

Do not use this product in manholes in storm drain systems.

Application Restrictions

Do not enter or allow others to enter manholes until spray has dried.

Do not allow spray to drift from the application site and contact people, structures people occupy at any time and associated property, parks and recreation areas, non-croplands, aquatic and wetland areas, woodlands, pastures, rangelands, or animals.

The applicator also must use all other measures to control drift.

Insure that all surfaces are clean and dry prior to applying this product. Each gallon covers approximately 500 square feet. Apply by using a coarse, low pressure spray using conventional airless spray equipment. For best results, use without dilution. If necessary, dilute with up to 5% water.

TREATMENT OF SEWER MANHOLES: (For control of cockroaches).

Apply product only on manhole walls. Product is to be applied via coarse spray using conventional airless spray equipment delivered through a 6 foot (or longer) spray wand with minimum of 2 spray tips (for even application).

The application of Insecta to sewer manhole walls must be done only from above ground and the applicator is not to enter the manhole. Apply no more than 48 ounces (3 pints) of product to each manhole. Do not discharge spray or unused material directly into sewer system. Do not apply product within 36 hours of predicted heavy rainfall.

ATTENTION: Dries quickly and rinses easily with water. Allow to dry for several days before washing. As contact between the insect and the treated surface is necessary, any time that the latter becomes coated with dust or dirt, the treated surface should be washed with water in order to re-establish maximum possible contact. **INSECTA** applied on exposed glass, glazed tile, metal or other non-porous surfaces may dry leaving a light film.

KILLS BY CONTACT: American Cockroaches, German Cockroaches and Houseflies.

ACCEPTED

JUL 27 2010

Kills German Cockroaches, Houseflies, and Rodent Fleas, as amended, for the pesticide registered under EPA Reg. No. 45600-1

Ready-To-Use Exterior Product

Cockroaches for up to one year when exposed to treated paint
Houseflies alighting on treated painted surfaces for up to 18 months

KILLS LISTED CRAWLING AND FLYING INSECTS

Outdoor Non-Residential:

For use on the inside of sewer manhole walls to control American and German cockroaches

Active Ingredient:

Chlorpyrifos (O,O-Diethyl O-(3,5,6-trichloro-2-pyridinyl) phosphorothioate.....	0.86%
Other Ingredients.....	99.14%
Total	100.00%

Net Contents: 55 gallons (Min)
KEEP OUT OF REACH OF CHILDREN
CAUTION

See side panels for additional precautionary statements

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist.

Personal Protective Equipment (PPE)

When working with product with open containers including drum lid changes in the field.

All mixers, loaders, and handlers must wear:
- coveralls over long-sleeved shirt and long pants;
- chemical-resistant gloves such as neoprene;
- chemical-resistant apron when mixing or loading or exposed to the concentrate;
- chemical-resistant footwear plus socks;
- chemical-resistant headgear for overhead exposures;
a NIOSH-approved dust mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator any N, R, P, or HE filter.

Personal Protective Equipment (PPE)

Application of product with closed container systems.

For above ground application of Insecta on sewer manhole walls using product that is pumped from a closed container, applicators and handlers must wear:
- long sleeved shirt and long pants;
- chemical-resistant gloves such as neoprene;
- chemical-resistant footwear plus socks.
Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently for 15-20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, give artificial respiration. If breathing is difficult, use a non-rebreather mask. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Wash immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if person is conscious. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when you go to the hospital or doctor, or going for treatment.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Atropine, only by injection is the antidote. **HOTLINE INFORMATION:** Emergency Telephone

User Safety Recommendation

Users should wash hands before eating, drinking, or using the toilet.
Users should remove clothing/PPE immediately after use. Then wash thoroughly and put on clean clothes.
Users should remove PPE immediately after handling the outside of gloves before removing. Always wash thoroughly and change into clean clothing.

EPA Reg. No. 45600-1 EPA Est. No. 68514-FL-001
See side panel for additional precautionary statements.

INSECTA®

Ready-To-Use Exterior Product

Control roaches for up to one year when exposed to treated painted surfaces.
Control flies alighting on treated painted surfaces for up to 18 months.

ALL LISTED CRAWLING AND FLYING INSECTS

Outdoor Non-Residential:

Use on side of sewer manhole walls to control American and German cockroaches.

Chlorpyrifos (3,5,6-trichloro-2-pyridinyl) methylcarbamate	0.86%
Permethrin	99.14%
Total	100.00%

Net Contents: 55 gallons (Minimum 15 gallons)
KEEP OUT OF REACH OF CHILDREN
CAUTION

Side panels for additional precautionary statements.

Precautionary Statements

Use on Humans and Domestic Animals

CAUTION

Harmful if inhaled. Causes moderate eye irritation, or clothing. Avoid breathing spray.

Protective Equipment (PPE)

Use with open containers including applicators in the field.

Wear: long pants; gloves; eye protection; and footwear. Avoid contact with skin, clothing, or equipment. Do not eat, drink, or smoke while using this product. Wash hands thoroughly after use. Do not use in enclosed areas. Do not use in areas where food is prepared or consumed. Do not use in areas where food is stored. Do not use in areas where food is served. Do not use in areas where food is sold. Do not use in areas where food is distributed. Do not use in areas where food is transported. Do not use in areas where food is stored, served, sold, or distributed. Do not use in areas where food is transported.

Protective Equipment (PPE)

Use with closed container systems.

Use on sewer manhole walls using product. Applicators and handlers must wear:

Wear: long pants; gloves; eye protection; and footwear. Do not use in enclosed areas. Do not use in areas where food is prepared or consumed. Do not use in areas where food is stored. Do not use in areas where food is served. Do not use in areas where food is sold. Do not use in areas where food is distributed. Do not use in areas where food is transported.

FIRST AID

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection is the preferable antidote.

HOTLINE INFORMATION: Emergency Telephone Number: 1-800-255-3924

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This product is toxic to fish, aquatic invertebrates, small mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treated areas.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage Store in a cool, dry area under lock and key. Post as a pesticide storage area. Always store pesticides in the original container. Store away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Place liquid formulations on lower shelves and dry formulations above. Do not allow to freeze.

Pesticide Disposal To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

Container Handling Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available, or puncture and dispose of in a sanitary landfill or by incineration. Do not burn unless allowed by state and local ordinances.

NOTICE

Seller warrants that this product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. To the extent allowed by applicable laws, neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and to the extent allowed by applicable laws buyer assumes the risk of any such use.
