Pat Quinlan
Insecta Marketing, Inc.
3601 NE 5th Avenue
Oakland Park, FL 33334-2214

Dear Mr. Quinlan:

Subject: Amended labeling to revise the container handling (i.e., cleaning) instructions
Product Name: Insecta®
EPA Reg. No. 45600-1
EPA Decision No. 461249

The proposed labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable with the following comment:

- At the end of the Container Handling section, add the following text: "Then offer for recycling if available, or puncture and dispose of in a sanitary landfill or by incineration. Do not burn unless allowed by state and local ordinances." (This language appeared on the previously approved label, and appears to have been inadvertently deleted).

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label or durably marked on the container itself. This information can be added by non-notification per PR Notice 98-10.

A stamped copy of the label is enclosed for your records. Please submit two copies of your final printed labeling before you release the product for shipment. Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). If you have any questions, please contact me at (703) 308-8045 or eagle.venus@epa.gov.

Regards,

A handwritten signature in cursive script, appearing to read "Venus Eagle".

Ready-To-Use Exterior Product

Environmental Hazards

This product is toxic to fish, aquatic invertebrates, small mammals and birds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinsate.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treated areas.

Kills German Cockroaches for up to one year when exposed to treated painted surfaces. Kills Houseflies alighting on treated painted surfaces for up to 18 months.

KILLS LISTED CRAWLING AND FLYING INSECTS

Outdoor Non-Residential:
For use on the inside of sewer manhole walls to control American and German cockroaches.

Active Ingredient:
 Chlorpyrifos (O,O-Diethyl O-(3,5,6-trichloro-2 pyridinyl) phosphorothioate).....0.86%
Inert Ingredients.....99.14%
Total 100.00%

See side panels for additional precautionary statements.

Precautionary Statements

Hazards to Humans and Domestic Animals
CAUTION

Harmful if absorbed through skin, eyes, or clothing. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing spray mist.

When working with product with open containers including drum lid changes in the field.

- chemical-resistant footwear plus socks;
- chemical-resistant headgear for overhead exposures;
- a NIOSH-approved dust mist filtering respirator with MSHA/NIOSH approval number prefix TC-21C or a NIOSH-approved respirator any N, R, P, or HE filter.

Personal Protective Equipment (PPE) Application of product with closed container systems.

For above ground application of Insecta on sewer manhole walls using product that is pumped from a closed container, applicators and handlers must wear:

- long sleeved shirt and long pants;
 - chemical-resistant gloves such as neoprene;
 - chemical-resistant footwear plus socks.
- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

ACCEPTED

With COMMENTS

In EPA Letter Dated:

MAR - 2 2012

Under the Federal Insecticide, Fungicide and Rodenticide Act, As amended, for the pesticide Registered under EPA Reg. No.:

45600-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
 Do not apply this product in a way that will contact workers or other persons, either directly or through drift.
 Do not use this product in manholes in storm drain systems.

Application Restrictions

Do not enter or allow others to enter manholes until spray has dried.
 Do not allow spray to drift from the application site and contact people, structures people occupy at any time and the associated property, parks and recreation areas, non-target crops, aquatic and wetland areas, woodlands, pastures, rangelands, or animals.
 The applicator also must use all other measures to control drift.

Insure that all surfaces are clean and dry prior to applying this product. Each gallon covers approximately 500 square feet. Apply by using a coarse, low pressure spray by using conventional airless spray equipment. For best results, use without dilution. If necessary, dilute with up to 5% water.

TREATMENT OF SEWER MANHOLES: (For control of cockroaches).

Apply product only on manhole walls. Product is to be applied via coarse spray using conventional airless spray equipment delivered through a 6 foot (or longer) spray wand with minimum of 2 spray tips (for even application). The application of Insecta to sewer manhole walls must be applied only from above ground and the applicator is not to enter the manhole. Apply no more than 48 ounces (3 pints) of material directly into sewer system. Do not apply product within 36 hours of predicted heavy rainfall.

ATTENTION: Dries quickly and rinses easily with water. Allow to dry for several days before washing. As contact between the insect and the treated surface is necessary, any time that the latter becomes coated with dust or dirt, the treated surface should be washed with water in order to re-establish maximum possible contact. INSECTA applied on exposed glass, glazed tile, metal or other non-porous surfaces may dry leaving a light film.

KILLS BY CONTACT: American Cockroaches, German Cockroaches and Houseflies.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal.
Pesticide Storage Store in a cool, dry area under lock and key. Post as a pesticide storage area. Always store pesticides in the original container. Store away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Place liquid formulations on lower shelves and dry formulations above. Do not allow to freeze.
Pesticide Disposal To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

Container Handling Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

NOTICE

Seller warrants that this product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. To the extent allowed by applicable laws, neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and to the extent allowed by applicable laws buyer assumes the risk of any such use.
