US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 45600-14	DATE OF ISSUANCE July 30, 1991
	TERM OF ISSUANCE Until Reregistration	
	NAME OF PESTICIDE PRODUCT Insecta 500z	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Insecta, Inc.
 25 Southeast 7th Street
 Deerfield Beach, FL 33443

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 45600-14."
 - b. Delete the word "Caution" from where it appears under the Directions for Use, in the paragraph beginning with "Insecta covers approximately 425 sq. ft. . . ." Caution is the signal word for this product and should refer only to the precautionary statements. You may begin the paragraph with "Attention" or "Please Note."

3. A 1-year storage stability study will be due within 15 months of the date of this notice. The study must be conducted under warehouse conditions of temperature and humidity, with the product contained in packaging similar to that which will be used in the marketplace.

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

while coating is wet. Provide ventilation of area during application. Avoid contact with eyes, skin and clothing. In case of contact, flush eyes or skin with plenty of water.

If applied in home, cover all food processing surfaces and utensils or wash thoroughly before reuse. Cover exposed food. Do not apply to surfaces which actually contact food during preparation, or milkrooms, mangers, feed troughs.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison control center, drink plenty of water.

If inhaled: As with any freshly coated surface get plenty of fresh air. If on skin: Wash with water.

If in eyes: Flush with plenty of water. Get medical attention if irritation persists.

Note to Physician: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection, is the preferable antidote.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not contaminate water by disposal of equipment washwaters. Do not apply directly to water. Apply this product only as specified on this label.

PHYSICAL HAZARDS

Should not be mixed with water or paint solvents, not diluted in any manner.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. All loose paint, whitewash, dirt, mildew, oil and other contaminants must be removed to insure a clean surface. This product is supplied ready to use after stirring thoroughly. For interior home use, this product should be applied by brush or rolled on target areas as stated on the front part of this label in the form of a band a few inches in width to obtain an even coat covering approximately 425 s.f. per gallon. For uses other than interior home application, apply with brush, roller or spray. Wash brush, roller or spraying equipment thoroughly with soap and water after use. As contact between the insect and coated surface is necessary, any time that the latter becomes covered with dust or dirt, the coated surface should be washed with clear water in order to re-establish maximum possible contact.

DIRECTIONS FOR USE - (Cont'd.)

FOOD HANDLING ESTABLISHMENTS: (Places other than private residences in which exposed food is held, processed, prepared or served) including, but not limited to bars, restaurants, food stores, bakeries, bottling plants, canneries and grain mills. Application shall be limited to (paint-on) spot treatment and/or crack and crevice treatment. For crack and crevice treatments, equipment capable of delivering a pin stream of insecticide should be used.

FOOD MUST BE REMOVED OR COVERED DURING TREATMENT.

SPOT APPLICATION controls cockroaches, ants, crickets, silverfish and spiders and aids in the control of pantry pests in and around both food and non-food areas. Apply INSECTA with a 3" to 4" brush, roller, or handled sponge applicator to localized areas where these pests have been seen or are suspected of hiding or entering. Apply only enough to wet the surface. Avoid runoff. Do not allow the insecticide to contact food or food processing surface. Areas to be treated include baseboards, moldings, around plumbing and other utility installations, dark corners and closets, and around doors, ventilators, windows and other openings. Apply adjacent to tin panelling or other material loosely attached to walls. Completely band the undersides of work tables and storage shelving but never on the exposed work-storage surface. Remove all drawers and band the three exterior sides but never the interior or front. Floor drains, garbage rooms and locker rooms should be included in treatment. Treated surfaces should not be washed or cleaned for 36 hours after application.

CRACK AND CREVICE TREATMENT: should be made by applying INSECTA as a coarse, low pressure (20 PSI or less) spray with equipment capable of delivering a pin stream of insecticide directly into openings leading to voids and hollow spaces in walls, equipment legs and bases or at points that occur between different elements of construction or especially where equipment joins floors and walls. An applicator fitted with needle injector or equipment capable of delivering a pinstream of insecticide should be used. Use equipment with plastic rather than rubber hose since the solvents in the insecticide may cause collapse of the rubber. Prior to application de-energize equipment and allow time for solvent to evaporate before starting motors or placing in "ON" position. Do not apply INSECTA on or near flames or heated surfaces.

Caution: INSECTA covers approximately 425 sq. ft. per gallon. Dries quickly and rinses easily with water. Allow to dry for several days before washing. Wash brush, roller or spraying equipment thoroughly with soap and water after use. As contact between the insect and the coated surface is necessary, any time that the latter becomes covered with dust or dirt, the coated surface should be washed with water in order to re-establish maximum possible contact. INSECTA applied on etched glass, glazed tile, metal, or other non-porous surfaces may dry leaving a light film.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal. Store away from freezing temperatures. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. For disposal of the container, triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

NOTICE

Seller warrants that this product conforms to its chemical description and is reasonably fit for purposes stated on the label when used in accordance with directions under normal conditions of use. Neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
