JUN 1 9 2001

Under the Pederal Insecticide, Fungicide, and Rodenticlide Act as emended, for the pesticide registered under EPA Reg. No. 4 1206 - 19

How To Apply Insecta Spray

Kills cockroaches, ants, spiders, flies, mosquitoes, millipedes, ticks, gnats, palmetto bugs, silverfish, earwigs, crickets, fire ants, gypsy moths, scorpions and black widow spiders by contact with residual action.

Apply a barrier of Insecta Spray as a crack and crevice and spot treatment.

Directions For Use

It is a violation of Federal Law to use this label in a manner inconsistent with its labeling. Provide adequate ventilation of area being treated. Keep children and pets away from surface until spray is dry.

Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm. Do not apply in classrooms when in use. Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present. Do not use in food/feed areas of food/feed handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where food may be prepared or held. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

Non food/feed areas where this product can be applied are areas such as garbage rooms, lavatories, floor drains (to sewers), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Important: Shake well prior to use. Hold container between 6 and 12 inches from surface being sprayed. Spray at a rate of 1 foot per second or until surfaces are wet. Do not spray directly on plants, shrubs or grass.

If applied in home, cover all food processing surfaces and utensils or wash thoroughly before reuse. Cover exposed food. Do not apply to surfaces which actually contact food during preparation.

Crack & Crevice/Spot Treatment: Insecta Spray aids in the control of pantry pests. Apply Insecta Spray to localized areas where these pests have been seen or are suspected of hiding or entering. Apply only enough to wet the surface. Avoid runoff. Do not allow the insecticide to contact food or food processing surfaces. Areas to be treated include along baseboards and moldings, around plumbing and other utility installations, dark corners and

closets, and around doors, ventilators and windows. Apply adjacent to tin paneling or other material loosely attached to walls. Floor drains, garbage rooms and locker room should be included in treatment. Treated surfaces should not be washed or cleaned for 36 hours after application.

Attention: As contact between the insects and the coated surface is necessary, any time that the latter becomes covered with dust or dirt, the coated surface should be washed with water in order to reestablish maximum possible contact. INSECTA applied on exposed glass, glazed tile, metal or other non-porous surfaces may dry leaving a light film.

Precautionary Statements Hazards To Humans and Domestic Animals CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling.

First Aid

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air.

If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call a poison control center or doctor for further treatment advice.

If on skin or clothing: Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice.

Have a person sip a glass of water if able to swallow.

Do not induce vomiting.

Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Note to Physician: Contains petroleum distillate – vomiting may cause aspiration pneumonia.

Environmental Hazards

This product is toxic to fish, birds and other wildlife. Do not contaminate water by disposal of equipment washwaters. Do not apply directly to water. Apply this product only as specified on this label.

Chemical and Physical Hazards

Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130 degrees F. may cause bursting.

Storage and Disposal

Storage: Store away from heat or open flames in an area inaccessible to children. Disposal: Replace cap and discard container in trash. Do not incinerate or puncture.
