MAR 20 1991

Mr. Jacob J. Vukich Nor-Am Chemical Company 3509 Silverside Road P.O. Box 7495 Wilmington, Delaware /803

Dear Mr. Vukich:

Subject: Shortened Application Interval for Citrus Carzol SP EPA Registration Number 45639-74 Your Application Dated October 3, 1990

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable provided that you:

 Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec.
3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

We have also enclosed a copy of the reviewer's report. Please note the comment that correction for controls (blanks) is inappropriate for residue analysis.

Sincerely yours,

Dennis H. Edwards, Jr. Product Manager (12) Insecticide-Rodenticide Branch Registration Division (H7505C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

REENTRY STATEMENT:

Do not enter treated areas for 24 hours unless protective clothing is worn

Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your Ctate Department of Agriculture for further information

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. (Indicate specific oral warnings which inform workers of areas or fields that may not be entered without specific protective clothing, period of time field must be vacated and appropriate actions to take in case of accidental exposure.) When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

DANGER: Area treated with CARZOL' SP on (date of application). Do not enter without appropriate protective clothing for 24 hours or until leaves are completely dry. In case of accidental exposure see Statement of Practical Treatment on the label.

CARZOL SP is completely soluble in water. Preparation of a premix of slurry before adding to the spray tank is not necessary. Add the desired amount of CARZOL SP directly to the spray tank ½ full of water with the agitator running. Then add the remainder of the water.

NOTE: CARZOL SP is not stable in alkaline water. Do not prepare the spray mixture until just before application. Do not prepare more spray mixture than will be used within 4 hours.
