OVICIDAL MITICIDE

A Suspension Concentrate (SC) Formulation
for Mite Control on Pears

	Percent by Weight
ACTIVE INGREDIENT:	
3,6-bis (2-chlorophenyl)-1,2,4,5-tetrazine	42%
INERT INGREDIENTS:	58%
TOTAL	100%

Contains 1 pound of active ingredient per quart.

EPA Registration No. 45639-135

KEEP OUT OF REACH OF CHILDREN
CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if irritation persists.

SEE SIDE PANELS FOR ADDITIONAL PRECAUTIONARY STATEMENTS

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with skin, eyes or clothing. In case of skin contact, carefully remove contaminated clothing and wash affected area thoroughly with soap and water. In case of eye contact, flush eyes with plenty of water. Get medical attention if irritation persists.

Wash hands and exposed skin before eating, drinking or smoking and after spraying or handling. Wash all contaminated clothing thoroughly before reuse.

ENVIRONMENTAL HAZARDS - Do not apply directly to water. Do not apply when weather conditions favor drift from treated area. Do not contaminate water when disposing of equipment wash waters.

IN CASE OF FIRE, LEAKY OR DAMAGED CONTAINERS, OR OTHER EMERGENCY, REPORT AT ONCE BY TOLL-FREE TELEPHONE TO 800-424-9300.

IMPORTANT - Read the entire Directions for Use and Disclaimer of Warranties before using this product.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

General Information

APOLLO SC is a specific miticide which acts as an ovicide and on the young motile stage. APOLLO SC is relatively non-toxic to beneficial insects and mites. It has good residual activity on European red mites, two-spotted spider mites, McDaniel mites, and yellow spider mites when applied according to label directions.

USE ON PEARS

Target Species

European red mite	<u>Panonychus ulmi</u>
Two-spotted spider mite	<u>Tetranychus urticae</u>
McDaniel mite	<u>Tetranychus mcdanieli</u>
Yellow spider mite	<u>Eotetranychus carpini borealis</u>

APOLLO SC may be applied by ground using either dilute or concentrate spray equipment. Do not apply by air.

3d.

Concentrate Application (less than 400 gallons per acre): Apply 4-8 ounces of APOLLO SC per acre.
Dilute Application (400 gallons per acre or more): Use 1-2 ounces of APOLLO SC per 100 gallons of spray. Do Not apply less than 4 ounces of APOLLO SC per acre.

Recommendation for Use

Because APOLLO SC acts primarily against the egg and larval stages, apply APOLLO SC at the first sign of mite activity. If the mite population is approaching damaging levels or if pear rust mite is present, combine APOLLO SC with an appropriate adulticide such as CARZOL SP. When tank mixing APOLLO SC with an adulticide, use label rates for both products.

IMPORTANT: Do not apply within 21 days of harvest. Do not graze treated areas. Do not apply this product through any type of irrigation system.

DO NOT MAKE MORE THAN ONE APPLICATION OF APOLLO SC PER SEASON.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container, tightly closed, in a safe place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerator, or, if allowed by state and local authorities by burning. If burned, stay out of smoke.
