This label must be in the possession of the user at the time of the pesticide application.

# Apollo®

## OVICIDE MITICIDE

A Suspension Concentrate (SC) Formulation for Mite Control on  
Apricots and Cherries

## RESTRICTED USE PESTICIDE

For the retail sale to, and use only by, Certified Applicators or persons under their direct supervision and only for those uses covered by the Certified Applicator's certification.

EPA Registration No. 45639-135

**IMPORTANT**—Read the entire Directions for Use and Disclaimer of Warranties before using this product.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

### REENTRY STATEMENT

Do not enter treated areas without protective clothing until sprays have dried. Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

**CAUTION:** Area treated with APOLLO® SC on (date of application). Do not enter without appropriate protective clothing until leaves are completely dry. In case of accidental exposure, see Statement of Practical Treatment on the label.

### GENERAL INFORMATION

APOLLO® SC is a specific miticide which acts as an ovicide and on the young motile stages. APOLLO SC is relatively non-toxic to beneficial insects and mites. It has good residual activity on European red mites, two-spotted spider mites, McDaniel mites, yellow spider mites, and pacific spider mite when applied according to label directions.

### MANAGING MITE RESISTANCE

Repeated use of miticides with a similar mode of action may lead to buildup of resistant strains of mites. For good resistance management practices, NOR-AM Chemical Company recommends that the ovicide/ larvicide APOLLO SC be applied only once per year.

## APRICOTS AND CHERRIES

### TARGET SPECIES

European red mite	<i>Panonychus ulmi</i>
Two-spotted spider mite	<i>Tetranychus urticae</i>
Pacific spider mite	<i>Tetranychus pacificus</i>
McDaniel mite	<i>Tetranychus mcdanieli</i>

APOLLO SC may be applied by ground using either dilute or concentrate spray equipment. Do not apply by air.

**Concentrate or Dilute Application** (50-400 gallons per acre): Apply 2-8 ounces of APOLLO SC per acre.

For best results, apply APOLLO SC at first appearance of mite activity. When mite populations are approaching damaging levels and require quick knockdown, APOLLO SC application should be made in combination with an appropriate contact adulticide. When tank mixing APOLLO SC with an adulticide, use label rates for both products.

Applications with rates below 4 ounces of APOLLO SC per acre are recommended only in association with established IPM programs and only when adequate beneficial insects/mites are prevalent.

**IMPORTANT:** Do not apply within 21 days of harvest. DO NOT APPLY MORE THAN 1 APPLICATION OF APOLLO SC PER SEASON. Do not graze livestock in treated areas or harvest cover crop for livestock feed. Do not apply this product through any type of irrigation system.

**IN CASE OF FIRE, LEAKY OR DAMAGED CONTAINERS, OR OTHER EMERGENCY, REPORT AT ONCE BY TOLL-FREE TELEPHONE TO: 800-424-9300.**

### IMPORTANT: READ BEFORE USE

By using this product, user accepts the following conditions, warranty disclaimer of warranties and limitations of liability

**CONDITIONS:** The directions for use of this product are believed to be adequate and should be followed carefully. However, because of extreme weather and soil conditions, manner of use and other factors beyond NOR-AM Chemical Company's control, it is impossible for NOR-AM to eliminate all risks associated with the use of this product. As a result, crop injury or ineffectiveness is always possible.

**DISCLAIMER OF WARRANTIES:** THERE ARE NO WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE, WHICH EXTEND BEYOND THE STATEMENTS MADE ON THIS LABEL. No agent of NOR-AM Chemical Company is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. UNDER NO CIRCUMSTANCES SHALL NOR-AM CHEMICAL COMPANY BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM FAILURE TO USE THIS PRODUCT IN ACCORDANCE WITH LABEL DIRECTIONS.

**LIMITATIONS OF LIABILITY:** In no event shall NOR-AM Chemical Company's liability for damages arising out of the use of this product exceed the purchase price of the product used.
