

Spray for about 10 seconds or until surface is moist from inside. To prevent entrance of insects into the house, spray around points where outside plumbing faucets, etc. enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills wasps, hornets, and yellow jackets. This spray is fast acting when insects are hit directly. With the breeze at back, thoroughly spray the nest until it soaks. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the pest(s) sprayed. The formulation utilizes synergized Bendiocarb, an imitative, specifically effective on this class of insects. Application should be made in the evening when the insects are at rest.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, well-ventilated location and protect from exposure to temperatures above 100°F. Store upright during storage.

DISPOSAL: Replace cap, wrap container in several layers of newspaper and discard in trash bin. Do not reuse container for pesticide.

IMPORTANT: READ BEFORE USE

Read all the product label directions for use carefully. Do not use if container is damaged and contents are lost.

CONDITIONS: The structure for use of this product is designed to be a safe and should be used with care. However, because of extreme weather conditions and from improper use and other factors, the use of NOR-AM Chemical Company's product is not possible. NOR-AM Chemical Company is not responsible for any damage or injury which may be caused by the use of this product. Always use this product in a safe and responsible manner.

DISCLAIMED OF WARRANTIES

Ficam

WASP & HORNET SPRAY

CONTAINS SYNERGIZED BENDIOCARB

KILLS WASPS, HORNETS AND YELLOW JACKETS

DIELECTRIC BREAKDOWN VOLTAGE 23,000 volts
May be used in or around electrical equipment

ACTIVE INGREDIENTS	Percent by Weight
*Bendiocarb (2,2-dimethyl-1,3-benzodioxol-4-yl methylcarbamate)	0.10%
**Piperonyl Buloxide Technical	0.50%
INERT INGREDIENTS	99.40%
	Total 100.00%

*Patented by U.S. Patent No. 3,736,338
Equivalent to 0.240% butylcarbitol (6-propylpiperonyl ether) and 0.260% related compounds

EPA REG NO. EPA EST NO. 10900 OH-1

**KEEP OUT OF REACH OF CHILDREN.
WARNING-**

See back panel for additional precautions

MANUFACTURED FOR

NOR-AM

NOR-AM CHEMICAL COMPANY
3509 Silverdale Road
Wilmington, Delaware 19803

NET CONTENTS:
14.25 OZ.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 to 2 glasses of water and induce vomiting by tickling back of throat with finger. Do not give anything by mouth to anyone who is unconscious.

IF INHALED: Remove affected person to fresh air. Give artificial respiration if needed.

IF IN EYES: Flush with plenty of water continuously for 15 minutes.

IF ON SKIN: Remove contaminated clothing and wash affected areas of skin with soap and water. Consult a physician if irritation persists. Wash thoroughly with soap and water before reuse.

NOTE TO PHYSICIAN: Bendiocarb is a carbamate inhibitor. Atropine sulfate 2 mg. should be given by mouth and repeated as necessary if therapy is required.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

May be harmful if swallowed or inhaled. Avoid contact with skin. Avoid contact with eyes. Avoid contact with clothing. Avoid contact with skin. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is highly toxic to aquatic organisms. Do not apply to water bodies. Do not use in areas where it may come in contact with water.

PHYSICAL & CHEMICAL HAZARDS

This product is highly flammable. Do not use near open flames. Do not use near heat. Do not use near electrical equipment.

DIRECTIONS FOR USE

Use as directed on label. Do not use in areas where it may come in contact with water. Do not use in areas where it may come in contact with electrical equipment. Do not use in areas where it may come in contact with children or pets. Do not use in areas where it may come in contact with food or feed. Do not use in areas where it may come in contact with clothing. Do not use in areas where it may come in contact with skin. Do not use in areas where it may come in contact with eyes. Do not use in areas where it may come in contact with hair. Do not use in areas where it may come in contact with mucous membranes. Do not use in areas where it may come in contact with open wounds. Do not use in areas where it may come in contact with cuts or abrasions. Do not use in areas where it may come in contact with burns. Do not use in areas where it may come in contact with frostbite. Do not use in areas where it may come in contact with radiation. Do not use in areas where it may come in contact with nuclear materials. Do not use in areas where it may come in contact with radioactive materials. Do not use in areas where it may come in contact with hazardous waste. Do not use in areas where it may come in contact with explosives. Do not use in areas where it may come in contact with flammable liquids. Do not use in areas where it may come in contact with flammable solids. Do not use in areas where it may come in contact with flammable gases. Do not use in areas where it may come in contact with flammable dusts. Do not use in areas where it may come in contact with flammable mists. Do not use in areas where it may come in contact with flammable vapors. Do not use in areas where it may come in contact with flammable fumes. Do not use in areas where it may come in contact with flammable smoke. Do not use in areas where it may come in contact with flammable mists. Do not use in areas where it may come in contact with flammable vapors. Do not use in areas where it may come in contact with flammable fumes. Do not use in areas where it may come in contact with flammable smoke.
