Your Letter Dated April 16, 1997, Response To
Agency's Letter Dated June 1, 1995, Unacceptable
Labeling Claims; and Your Resubmission Dated
July 25, 1997

Your response to this Agency's letters of June 1, 1995 and
April 25, 1997 have been reviewed. The proposed labeling
for each of the subject pesticide products submitted with your
letter dated July 25, 1997 is acceptable under the Federal
Insecticide, Fungicide and Rodenticide Act, as amended,
provided that you:

1. Make the optional claim "For Control of Weeds and Grasses
for Home Use Only" not optional for the labeling
of the subject products. Each of the labels must
bear the claim "For Home Use Only" to remove these
products from the EPA Worker Protection Standard
requirements, as stated in PR Notice 93-7 and 93-11.
2. Delete the marketing claims:
 - o Not Harmful to Honey Bees.
 - o Not Harmful to Earthworms.
 - o Not Harmful to Honey Bees and Earthworms.
3. Submit one (1) copy each of the final printed labeling
before you release the product for shipment under
the revised labeling.

If these conditions are not complied with, the registrations
~~will be subject to cancellation in accordance with FIFRA,~~

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read the entire label before using this product and use only according to the label instructions.

Finale Ready-To-Use is pre-mixed and ready to apply. Finale Ready-To-Use is formulated for "spot" treatments to kill weeds and grass around trees, shrubs, fences, walks, patios, driveways, sidewalks, in flower beds, around houses, buildings, wooded lots, storage and recreational areas and to non-selectively spot kill weeds in lawns. This product is an all-purpose weed and grass killer **that will injure or kill all green vegetation contacted**. It will kill most annual and perennial weeds, grasses and other unwanted vegetation. Finale Ready-To-Use will not interfere with seed germination or root growth of desirable plants. Treated areas can be reseeded or replanted 4 days after application or when weeds are dead.

To avoid spray drift onto desirable plants, do not spray during windy conditions. If spraying in areas adjacent to desirable plants, use a shield made of cardboard, plywood, or sheet metal while spraying to help prevent spray from contacting foliage of desirable plants. If spray contacts desirable plant foliage, immediately rinse the foliage with water. Avoid spray contact of foliage and green bark of desirable plants. To avoid tracking product on to desirable vegetation, keep people and pets off treated areas until the spray is thoroughly dried.

HOW TO APPLY

Adjust nozzle to a coarse spray setting. Hold spray tip 1 to 2 feet away from the weed or grass and apply to thoroughly wet the weed or grass, but avoid spray run-off. Repeat treatments may be necessary to control plants generating from underground parts or seed. Finale Ready-To-Use works best in warm sunny weather with daytime temperatures above 60°F. Weed control may be reduced when applications are made to weeds under stress due to drought or cool temperatures.
