NET CONTENTS

DIRECTION FOR USE
General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ELECTRO-SAN 99 is designed for use in commercial laundry applications.

Add 4 ounces ELECTRO-SAN 99 per 100 pounds of dry laundry in the final rinse cycle.

Fabric treated as directed will develop residual bacteriostatic activity and residual self-sanitizing activity against odor-causing Gram positive and Gram negative organisms under conditions of high relative humidity or wet contamination.

ELECTRO-SAN 99 inhibits the growth of ammonia producing organisms which act on urine in the diapers to produce ammonia.

ELECTRO-SAN 99 inhibits the growth of Gram positive and Gram negative odor-causing organisms on wet bed linens of incontinent persons.

ELECTRO-SAN 99 softens clothes, thus eliminating chafing, "Static Cling" out of nylons and other synthetics. Improves ironing time. For use in commercial laundry operations.
