

PEL Checklist

In all cases where there has been a change in production, process, control, or employee handling procedures, or if any events in the PEL Checklist occurred, or if, for any other reason an employer should suspect new or additional airborne inorganic arsenic, additional monitoring that complies with the requirements for initial monitoring shall be completed. Responses to the Checklist will become part of the monitoring records. Monitoring is required within 3 months if any of the following events/questions on the check list can be answered in the affirmative with respect to any events which may have occurred since the last monitoring report submitted to the Agency:

1. After the wood has been treated, have you changed from hand stacking to mechanical stacking or from mechanical stacking to hand stacking? If yes, when?
2. Has your production capacity increased significantly? If yes, when?
3. Have you changed from a ready-to-use or dilute concentrate to a mix-it-yourself formulation? Has the proportional amount of arsenic in the solution increased, e.g., have you shifted from CCA type A or C to type B? If yes, when?
4. Has a significant, i.e., reportable under the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980: (Superfund), 42 U.S.C. 9601 et seq., spill occurred? If yes, when?
5. Is treated wood being retained on the drip pad for less time? If yes, when?
6. Have there been any other production, process, control or employee handling procedure changes which could result in new or additional airborne inorganic arsenic? Identify change, and when it occurred.

Dear Mr. Larson:

Subject: Amended Labeling and Confidential Statement of Formula
Thiram Technical Micropearls
EPA Registration No. 45728-6
Your Submission Dated February 23, 1988

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

a. Modify the Environmental Hazards Section to read:

"Do not discharge effluent containing this product directly into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact you State Water Board or Regional Office of the Environmental Protection Agency."

b. Add a statement that each formulator is responsible for obtaining EPA registration for his end use product(s).

2. Submit one (1) copy of your final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records.

THIRAM TECHNICAL MICROPEARLS

02 342
ACCEPTED
with **COMMENTS**
in EPA Office Dated:
DEC 1 1980

Registered under FIFRA Act as amended, for the pesticide registered under EPA Reg. No.

45728-6

Active Ingredient:
THIRAM (Tetramethylthiuram Disulfide)96.5%
Inert Ingredients:3.5%

**Keep out of Reach of Children
Precautionary Statements
Hazards to Humans and Domestic Animals**

CAUTION

Do not inhale dust or spray mist. Do not get in eyes or on skin. Causes irritation to eyes, nose and skin. Use with adequate ventilation. Wash thoroughly after handling. Consumption of alcoholic beverages increases the toxic effects of Thiram. First Aid: In case of contact, immediately flush eyes or skin with water for 15 minutes. If irritation persists, contact a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal (U.S.A.) law to use this product in a manner inconsistent with its labeling. For manufacturing use only. Refer to technical bulletin for manufacturing instructions.

STORAGE AND DISPOSAL

For manufacturing use only.

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry place.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities.
