DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THESE ENTIRE DIRECTIONS & DISCLAIMER. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS & DIRECTIONS FOR USE

STORAGE & DISPOSAL (12 pt)

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Store unused product in original container only. Store in a cool, dry area preferably locked & out of the reach of children and animals. Not for use or storage in or around the home. Protect from excess heat.

PESTICIDE DISPOSAL: Pesticide Wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DIAPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

APPLES: To control scab, fly speck, sooty blotch, bitter rot, Brook's spot, and cedar-apple rust. Apply 1 to 2 pounds per average size tree. To control scab, start applications in pre-pink and repeat before or early in infection (wet) periods through pink, bloom, petal-fall, and cover periods. To control cedar-apple rust, make additional applications if necessary to keep trees protected during the bloom period.

PEACHES: To control brown rot, Rhizopus rot, and scab, apply 1/2 to 1 pound per average size tree. Apply at 3 to 4-day intervals during bloom for blossom blight control. Apply at petal fall and at 10 to 14-day intervals thereafter for fruit rots and scab.

STRAWBERRIES: To control gray mold (*Botrytis*) fruit rot-apply 40 pounds per acre. Make 3 to 5 applications at 10-day intervals beginning at early blossom stage. Good coverage of buds, blossoms and young fruit is essential.

Do not use on peaches within 7 days of harvest. If applied to strawberries within 3 days of picking, remove residues by washing.

Do not rotate treated crop with crops other than those with registered Thiram uses.

Do not reenter treated areas within 24 hours following application unless protective clothing is worn.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes eye & skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when

handling. Wash with soap & water after handling. Avoid inhaling dust. Do not use or store near food or feed.

## STATEMENT OF PRACTICAL TREATMENT

If swallowed, Drink 1 or 2 glasses of water & induce vomiting by touching back of throat with finger. Repeat until fluid is clear. Call a physician immediately. Do not induce vomiting or give anything by mouth to an unconscious person.

If inhaled, remove victim to fresh air. Apply artificial respiration, if indicated.

If on skin, remove contaminated clothing & wash affected areas with soap & water. See a physician if irritation persists.

If in eyes, flush eyes with plenty of water. See a physician if irritation persists.

**BEST AVAILABLE COPY**

Consumption of Alcoholic beverages increases the toxic effects of Thiram.

## ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.

Drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. DO NOT

RE-ENTRY

Do not enter treated areas without protective clothing until dusts have settled. Because certain states may require more restrictive reentry intervals for various crops treated with this product, consult your State Department of Agriculture for further information. Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Written warnings must include the following information:

CAUTION

(Insert area or field description) treated with Thiram on (insert date of application). Do not enter treated areas without protective clothing until dusts have settled. In case of accidental exposure: Call a doctor (physician), clinic or hospital immediately. Explain that the victim has been exposed to Thiram and describe his condition. For further information see the "Statement of Practical Treatment."

Oral warnings must include the same information that is in the written warnings.

DISCLAIMER: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.

NOTE: This pesticide is to be sold ONLY in his original, unbroken package.
